

BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION

IN THE MATTER OF THE APPLICATION)	
OF CABLE ONE, INC. FOR AN)	CASE NO. GNR-T-17-06
INVESTMENT TAX CREDIT FOR)	
INSTALLING QUALIFYING BROADBAND)	ORDER NO. 33880
EQUIPMENT)	

On August 28, 2017, Cable One, Inc. (the “Company”) applied to the Idaho Public Utilities Commission (“Commission”) for an Order certifying that equipment it installed in 2015 is “qualified broadband equipment” under *Idaho Code* § 63-3029I (Income tax credit for investment in broadband equipment).

THE APPLICATION

In its Application, the Company stated it invested \$8.2 million in qualifying broadband equipment in 2015. The Company stated that it installed equipment associated with the Hybrid Coax Network (“HFC”) using fiber optic and coaxial cable facilities with transmission rates of up to 200 Mbps. The Company stated that it installed the broadband equipment in the Twin Falls, Lewiston, Pocatello, Idaho Falls, Boise, and West Valley areas, and that 99.9% of its customers have access to the its broadband network. *See* Application at 2.

THE BROADBAND EQUIPMENT TAX CREDIT

Idaho Code § 63-3029I allows a taxpayer to receive an income tax credit for having installed qualified broadband equipment during a calendar year. Before the taxpayer is eligible for the tax credit, the taxpayer must first apply to the Commission for an Order certifying that the installed equipment is “qualified broadband equipment” as defined in the statute. *Idaho Code* § 63-3029I(4). That statute defines “qualified broadband equipment” as equipment that qualifies for the *Idaho Code* § 63-3029B capital investment credit that “is capable of transmitting signals at a rate of at least [200,000 bps] to a subscriber and at least [125,000 bps] from a subscriber.” *Idaho Code* § 63-3029I(3)(b). In addition, qualified broadband equipment must be “primarily used to provide services in Idaho to public subscribers. Further, in “the case of a cable or open video system operator, such qualifying equipment shall extend from the subscriber’s side of the headend to the outside of the structure in which the subscriber is located.” *Idaho Code* § 63-3029I(3)(b)(iii).

In furtherance of its statutory responsibility, the Commission has issued Order No. 28784.¹ That Order specifies the information the taxpayer must include in the broadband tax credit application. When the taxpayer files the application, the Commission Staff reviews it to determine whether the listed equipment meets the statutory definition of “qualified broadband equipment.” Staff then submits a recommendation to the Commission. If the Commission ultimately approves the application, then the Commission forwards it and the Order to the Idaho State Tax Commission.

STAFF REVIEW

Staff reviewed the Company’s Application under *Idaho Code* § 63-3029I and Commission Order No. 28784. Based on its review, Staff believes that the Company is a cable system operator and that the listed equipment meets the relevant statutory criteria and is “qualified broadband equipment” that is eligible for the tax credit. Staff thus recommended the Commission: (1) issue an Order confirming that the Company’s equipment is “qualified broadband equipment,” and (2) forward copies of the Application and Order to the Idaho State Tax Commission.

COMMISSION FINDINGS

Having reviewed the Company’s Application and Staff’s recommendation, we find that the Company’s equipment is “qualified broadband equipment” eligible for the tax credit under *Idaho Code* § 63-3029I. The Company is a cable system operator and the listed equipment is an integral part of the Company’s broadband network and is necessary to the provision of broadband service to Idaho customers. Accordingly, it is appropriate for the Commission to issue an Order confirming that the Company’s equipment is “qualified broadband equipment.” The Commission makes no findings regarding the costs of the installed broadband equipment or other expenses.

ORDER

IT IS HEREBY ORDERED that the Company’s Application seeking an Order confirming that it has installed qualified broadband equipment in Idaho during the 2015 calendar year is granted.

¹ The Commission issued Order No. 28784 pursuant to *Idaho Code* § 63-3029I(4), which empowers the Commission to “issue procedural orders necessary to implement” *Idaho Code* § 63-3029(4).

IT IS FURTHER ORDERED that a copy of this Order and a copy of the Application be served on the Idaho State Tax Commission.

THIS IS A FINAL ORDER. Any person interested in this order (or in issues finally decided by this order) may petition for reconsideration within twenty-one (21) days of the service date of this order with regard to any matter decided in this order. Within seven (7) days after any person has petitioned for reconsideration, any other person may cross-petition for reconsideration. *See Idaho Code §§ 61-626 and 62-619.*

DONE by Order of the Idaho Public Utilities Commission at Boise, Idaho this day of September 2017.

PAUL KJELLANDER, PRESIDENT

KRISTINE RAPER, COMMISSIONER

ERIC ANDERSON, COMMISSIONER
