Docket No. MCC-7-06-01

**APPLICATION OF MY CHOICE COMMUNICATIONS, INC., d/b/a MCCI
FOR A CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY**

I. Proposed Services

My Choice Communications, Inc., d/b/a MCCI ("MCCI" or "Applicant") seeks authority to provide resold and/or facilities-based (leased) competitive local exchange telecommunications services. Applicant seeks authority to provide these services in Idaho exchanges currently served by Qwest. The local exchange services Applicant proposes to offer include residential and small business basic exchange service, including touchtone dial-tone services and vertical features, such as voice mail, caller ID, call waiting, and other standard calling features. Applicant also proposes to offer business class local loop connectivity and transmission, including 2-wire, 4-wire, DS-0, DS-1, and DS-3 local loops necessary to connect business customers to interexchange carrier points of presence (POPs).

II. Form of Business

1. Name, Address and Form of Business

- b. If the applicant is a partnership,

(1) a list of the names and business addresses of all the partners, and

(2) the business name of the partnership.

c. If the applicant is a corporation,

(1) a short statement of the character of public service in which it may engage,

Applicant will engage in the public service of providing competitive local exchange telecommunications service.

(2) the name of the state in which it is incorporated,

Applicant is a privately-held corporation organized under the laws of the state of Idaho.

(3) its principal business address and its principal business address within Idaho,

Applicant's principal place of business is located at 1424 Yellowstone Ave., Pocatello, ID 83201. Its toll-free phone number is 1-877-616-1212 and its local phone number is 1-208-234-5700.

(4) a certified copy of its articles of incorporation,

A certified copy of Applicant's Articles of Incorporation from the Idaho Secretary of State is attached as **Exhibit 1**.

(5) if not incorporated in Idaho, a certificate of good standing issued by the Idaho Secretary of State of Idaho, and

(6) name and address of registered agent for service in Idaho.

2. If a corporation, the names and addresses of the ten common stockholders of applicant owning the greatest number of shares of common stock and the number of such shares owned by each, as follows:

Name and Address	Shares Owned	Percentage of All Shares Issued and Outstanding	Percentage of Voting Control
------------------	--------------	---	------------------------------

Ellice Rezaii 2399 Rulon Ave. Pocatello, ID 83201	Check Articles of Inc.	100%	100%
---	------------------------------	------	------

3. Names and addresses of the officers and directors of applicant.

<u>Name</u>	<u>Position</u>	<u>Address</u>
Ellice Rezaii	President/CEO	2399 Rulon Ave. Pocatello, ID 83201
Amir Rezaii	Vice President	211 La Valle Strada Pocatello, ID 83201
Saied Rezaii	Director	1424 Yellowstone Ave. Pocatello, ID 83201

See **Exhibit 2** for Resumes and Professional Biographies of Applicant's key management and technical staff.

4. Name and address of any corporation, association, or similar organization holding a 5% or greater ownership or a management interest in the applicant. As to ownership, the amount and character of the interest must be indicated. A copy of any management agreement must be attached.

No corporation, association, or similar organization holds a 5% or greater ownership or management interest in Applicant.

5. Names and addresses of subsidiaries owned or controlled by applicant.

Applicant has no affiliated interests.

III. Telecommunication Service

1. The date on which applicant proposes to begin construction or anticipates it will begin to provide service.

Applicant will not construct any facilities in Idaho. Applicant proposes to begin providing service in Idaho in the 4th Quarter of 2005.

2. A written description of customer classes and customer service[s] that the applicant proposes to offer to the public.

Applicant seeks authority to provide resold and leased facilities-based competitive local exchange telecommunications services. Applicant seeks authority to provide these services in Idaho exchanges currently served by Qwest. The local exchange services Applicant proposes to offer include residential and small business basic exchange service, including touchtone dial-tone services and vertical features, such as voice mail, caller ID, call waiting, and other standard calling features. Applicant also proposes to offer business class local loop connectivity and transmission, including 2-wire, 4-wire, DS-0, DS-1, and DS-3 local loops necessary to connect business customers to interexchange carrier points of presence (POPs).

IV. Service Territory

1. A description sufficient for determining whether service is to be offered in a particular location; and the names of all incumbent local exchange corporations with whom the proposed utility is likely to compete.

Applicant seeks authority to provide competitive local exchange services to customers residing in Qwest's Idaho exchanges.

2. Written description of the intended manner of service, for example, resold services or facilities based. A general description of the property owned or controlled by applicant.

Initially, Applicant seeks authority to provide resold and leased local exchange services. Applicant will lease Qwest's unbundled network element platform.

Applicant does not anticipate installing physical plant at this time. As the market for its services and business plans dictate, however, Applicant may eventually lease or deploy its own switches within existing carrier hotels or other leased premises. No physical construction of fiber optic or copper cables is anticipated, now or in the future.

3. A statement describing with whom the applicant is likely to compete.

Applicant's local exchange services will be sold in competition with Qwest, AT&T, MCI, Level 3 and other non-rural incumbent LECs and CLECs currently providing services in Idaho exchanges served by Qwest.

4. A description of the property owned by the applicant clarifies the applicant's proposed services and operation.

Applicant does not anticipate installing physical plant at this time or in the near future. As the market for its services and business plans dictate, however, Applicant may eventually lease or deploy its own switches within existing carrier hotels or other leased premises. No physical construction of fiber optic or copper cables is anticipated, now or in the future.

V. Financial Information – See **Exhibit 3**

1. Current detailed balance sheets, including a detailed income and profit and loss statements of applicant reflecting current and prior year balances for the twelve months ended as of the date of the balance sheet, or if not readily available, for the period since the close of the preceding calendar year.
2. If a balance sheet and income statement are not available, the applicant must submit financial data sufficient to establish that it possesses adequate financial resources to provide the proposed services.

VI. "Illustrative" Tariff Filings

Proposed initial tariff and price sheets setting forth rates, rules, terms, and regulations applicable to the contemplated service.

Applicant's proposed Idaho Local Exchange Tariff No. 1 is attached hereto at **Exhibit 4**.

VII. Customer contacts

Accomplishments:

Direct Sentry - Based on the Slackware distribution of Linux I created my own Distribution of linux for easy install. Included in current version are Firewall, IDS, Windows file sharing, Web Filtering, E-Mail, etc...

Development web site: <http://www.dcdi.net/sentry.php>

VPN - Created VPN(Virtual Private Network) scripts to connect multiple offices. Wrote scripts using bash scripting. Using these scripts to connect Doctor Offices, Insurance Companies, Schools, and Telephone Companies offices to each other so they would be able to share network resources.

ISP Build Outs - Built from ground-up, using both Windows and Linux based servers, networks for ISP's throughout the United States. Setup Cisco Routers, Portmaster Modem pools, Webservers, E-Mail servers, Monitoring and Billing servers.

Virtual Linux Server Project - Using the Virtual Linux Server project created a Linux cluster of 5 computers sharing all resources. This was used as redundant mail server for a large scale ISP. Machines were loaded with Slackware Linux and were previously workstations for company employees. The machines would check each others system stats and report to the monitoring station with then paged a technician if problem was not resolve by system restart. The offending machine when then be taken automatically out of the cluster queue until repairs were made.

Credit Card Processing - Using PHP scripting, JavaScript and HTML designed multiple web based forms for the Customer Service Reps to use when taking calls from people calling to order Products from different call center clients. With these forms and scripts the amount charged was put into the accounts of the call center clients.

Wireless Network - Built and designed a wireless network located in Eastern Idaho, established firewalls, monitoring points and access lists to allow smooth run of traffic. A total of 8 cities and 13 Access Points. Utilized 2.4 gig radios and 5.2-5.8 gig radios.
