RE: MIDVALE TELEPHONE'S APPLICATION FOR BROADBAND
EQUIPMENT TAX CREDIT. CASE NO. MID-T-03-1.

BACKGROUND

On August 5, 2003, the Commission received an Application from Midvale Telephone Exchange, Inc. to receive an investment tax credit for eligible broadband equipment pursuant to Order No. 28784 and *Idaho Code* § 63-3029I(4). To be eligible for the tax credit, the taxpayer must obtain from the Commission an Order confirming that installed equipment qualifies for the tax credit.

DISCUSSION

Midvale stated that, during calendar year 2002, it installed various components as part of its wireline broadband network for the provision of high-speed Internet access to customers in its Idaho service area. The Company also indicated that high-speed access to customers began in 2001 at transmission rates from 128 kilobits per second (kbps) up to 1.54 megabits per second (Mbps). The Application indicates that Midvale offers Asynchronous Digital Subscriber Line (ADSL) to customers using primarily AFC brand equipment.

In 2002, Midvale represents that it installed fiber optic transceivers, digital loop carrier shelves, line cards, concentrating electronics, and supporting power supply and software. Midvale capitalized the labor and overhead costs associated with the installation of this equipment.

STAFF REVIEW

Staff has reviewed the list of proposed broadband equipment submitted by Midvale and believes the equipment is “necessary to the provision of broadband services and an integral part of a broadband network” according to *Idaho Code* § 63-3029I (3)(b)(i). Staff has had discussions with Midvale to clarify the nature of various pieces of equipment and has also been assured that the installation labor, overhead, and supporting equipment is directly related to offering broadband in Idaho.

STAFF RECOMMENDATION

Staff recommends approval of the Application from Midvale Telephone Exchange and further recommends that the Commission forward the approving Order and copies of the Applications to the Idaho Tax Commission.

COMMISSION DECISION

Does the Commission wish to confirm that the equipment in the Application qualifies as broadband equipment and forward the Application to the Tax Commission?

Doug Cooley
