Docket No. OVS-T-12-01

**APPLICATION**

Onvoy, Inc. d/b/a Onvoy Voice Services ("Onvoy" or "Applicant"), by its undersigned counsel and pursuant to Idaho Code §§ 61-526-528, IDAPA 31.01.01.111, and Procedural Order No. 26665, hereby applies to the Idaho Public Utilities Commission ("Commission") for a Certificate of Public Convenience and Necessity to provide resold and facilities-based local exchange and access telecommunications service in the State of Idaho.

In support of this Application, Onvoy hereby provides the following information:

**I. Proposed Services**

Onvoy seeks authority to provide all forms of facilities-based and resold local exchange and access telecommunications services to and from all points in the State of Idaho that are currently or become open to competition.<sup>1</sup>

Onvoy provides wholesale local exchange, competitive tandem switching, transit, long distance, intrastate PRI service, direct inward dialing and SS7 services to other local exchange carriers and interexchange carriers, as well as some retail enterprise customers. Onvoy seeks the full range of resold and facilities-based local exchange and access authority so that it can have

the flexibility in provisioning services in the future. Facilities-based service will be provided via (1) commercial wholesale agreement with incumbents or other carriers, (2) Onvoy's own facilities, or (3) a combination thereof.

Initially, Onvoy intends to provide local exchange service in the areas served by Qwest and does not plan to provide service in areas of any small or rural local exchange carriers.<sup>2</sup> However, Onvoy does seek statewide authority so that it may expand into other services as market conditions warrant and as additional service areas become open to competition.

Onvoy is technically and managerially qualified to provide competitive local exchange and access services in Idaho. Onvoy's Idaho operations will be directed by its existing corporate management, technical, and operations staffs who are responsible for the telecommunications operations in other states. A description of the background of Onvoy's key personnel, which demonstrates the extensive telecommunications experience of Onvoy's management team, is attached hereto as Exhibit 1.

Onvoy is currently authorized to provide intrastate telecommunications service in California, Colorado, Indiana, Iowa (interexchange only), Michigan, Minnesota, Montana, Nebraska (interexchange only), Nevada, North Dakota, Ohio, Oregon, South Dakota (interexchange only), Texas (interexchange only), Utah, Washington and Wisconsin. Onvoy is in the process of seeking similar authorization in the following states so that Onvoy can provide services to the customers that may be assigned to Onvoy from its affiliate 360networks (USA)

---

<sup>1</sup> Onvoy is separately filing a registration with respect to interexchange and "Other Telecommunications Services".

<sup>2</sup> At this time, Applicant does not seek to terminate any exemption held by a rural telephone company pursuant to 47 U.S.C. § 251(f).

inc. ("360networks").<sup>3</sup> Arizona, Nebraska (local exchange), New Mexico, South Dakota (local exchange), Texas (local exchange) and Wyoming. Onvoy is also seeking authorization to provide intrastate telecommunications in New York. Onvoy has not been denied requested certification in any jurisdiction, nor has any permit, license, or certificate been revoked by any authority except where Onvoy sought authorization to provide services that were not within the jurisdiction of the state agency.<sup>4</sup> Onvoy is also authorized to provide interstate and international telecommunications services by the Federal Communications Commission.

Accordingly, Onvoy anticipates its proposed service will increase consumer choice of innovative, diversified, and reliable service offerings. The provision of more affordable and available local telecommunications services will promote the health, welfare and economic well-being of the citizens of Idaho. Onvoy respectfully submits that the public interest, convenience, and necessity would be furthered by a grant of this Application for the authority to provide resold and facilities-based local exchange and access telecommunications services.
