Carolee,

Please consider the information contained in these documents to be protected as propriety and confidential. Project Mutual Telephone is formally requesting a State Waiver in our application for a NPA for the St. Luke's Health System Twin Falls Location.

In response to the conversation on Thursday October 15<sup>th</sup> concerning the request from St. Luke's Magic Valley Medical Center for a complete NPA (10,000 numbers) PMT is including our business plan, documentation from the NueStar pooling administration and a request letter from St. Luke's Health System.

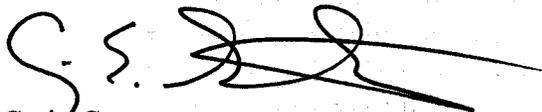

PMT's business plan is straightforward:

- Apply for and receive a State Waiver
- Reapply to NueStar for an entire NXX NPA
- Activate within our switch the assigned NPA
- Turn up the NPA as 10,000 DID numbers on PMT services to St Lukes
- St. Luke's MVMC to turn up the numbers to their complex of locations

We have been assured by St. Luke's they will fully utilize the NPA in the near future. As you can see from their attached letter they are currently using over 2,200 numbers and expect tremendous growth when moving into their new facility.

Please contact me if you have any questions or need additional documentation.

Sincerely,

Craig Gates  
VP/COO
