Comment_description: I have just read Mr. Clyde Dailey's, Idaho Director AARP, March 23 letter to your office which states that 145,000 AARP members support no deregulation of wire telephone lines in 7 Idaho Cities. I am here to state that he does not speak for at least two long time AARP members. Please reduce the stated number to 144,998 - (or less) opposing the change. Contrary to Mr. Dailey's observation on cell phones, I see many of my retired friends purchasing and using cell phones. They feel the need for greater security at home and when they are away from home. A cell phone provides them with a device that they can carry with them at all times. Presently there is great competition in the communication field for my communication needs and it is only fair to let all parties compete evenly. With competition for my communication dollar the servers will have to compete with each other and if one gets out of line with excessive rates their Company will not survive. I urge you to approve the request by Qwest to deregulate wire lines in the 7 Idaho exchanges and give them a fair chance to compete. It is the American way.

Norris & Mary Lou Lynch

Comment_description: We are AARP members but strongly disagree with them saying they represent us on the Deregulation proposal now before the PUC. WE FAVOR the deregulation of Boise, Caldwell, Nampa and Twin Falls.

There is plenty of competition in these areas and Qwest needs to be in a position to also compete. The use of telephones with wire is decreasing which is all the more reason to deregulate Qwest from these areas.

Please give Qwest a chance to enter the deregulation field.
Thanks.

Mr & Mrs William u. House

P.S. The members of my wife's Bridge Club and my morning coffee group who for the most part are AARP members also disagree and upset over AARP saying they represent them in this issue.
