**Re: Docket #QWE-T-03-24**

Dear Ms. Jewell:

Enclosed for filing with this Commission on behalf of Qwest Corporation is an original and seven copies of the **Revised Exhibit "A"**.

Please contact me if you have any questions concerning the enclosed. Thank you for your assistance in this matter.

Very truly yours,

  
Mary S. Hobson

**BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION**

**IN THE MATTER OF QWEST  
CORPORATION'S REVISIONS TO ITS  
STATEMENT OF GENERALLY  
AVAILABLE TERMS AND CONDITIONS  
(SGAT) PURSUANT TO 47 U.S.C. § 252(f)**

**CASE NO. QWE-T-03-24  
REVISED EXHIBIT "A"**

Qwest Corporation ("Qwest"), by and through its undersigned attorneys, and pursuant to Order No. 29408 files the attached Third Revised Fourth Amended Exhibit A, which reflects the prices for unbundled network elements (UNEs) ordered by the Commission in Case No. QWE-T-01-11. Qwest understands that because these prices have been previously approved by the Commission and because those prices that were not subject to the Commission's order are unchanged, this Third Revised Fourth Amended Exhibit A is effective immediately.

The attached Third Revised Fourth Amended Exhibit A integrates the Commission-ordered prices into the existing price schedule for all UNEs. In some cases the section numbers reflected in the Attachment to Order No. 29408 have been rearranged to better align the price list

provisions with the corresponding sections of Qwest's Statement of Generally Available Terms (SGAT). For example, the price for "Private Line to Unbundled Loop Conversions" listed in the Attachment to the Order No. 29408 as section 9.2.6 has been moved to section 9.2.8. Similarly, in addition to several section number changes, the prices for "Power Reduction" elements listed as section 8.1.4 have been moved to section 8.13, and section 8.1.14 ("Collocation Cable Augment QFP") has been moved to section 8.1.1 to be consistent with the SGAT.

Section 9.12, "Local Switching—Market Based Rates" has been moved and re-numbered as section 9.11.8. As a result of that change, the sections following section 9.12 have been re-numbered, thereby causing "Customized Routing," which had been listed as 9.13, to become section 9.12 and so on. These numbering changes do not result in change to the price elements or price levels.

Qwest respectfully requests that the Commission accept the attached Third Revised Fourth Amended Exhibit A as the current Exhibit A to the Idaho SGAT.

Dated this 16<sup>th</sup> day of January, 2004.

Idaho\***

		Recurring	Non- Recurring	Notes
--	--	-----------	----------------	-------

NOTES:

- \* Unless otherwise indicated, all rates are pursuant to the Qwest and AT&T Interconnection Agreement approved by the Idaho Public Utilities Commission in Docket Number USW-T-96-15, Commission Order Number 27738, effective September 17, 1998.
- # Denotes voluntary rate reduction.
- ## Additional reduction to the voluntary reductions reflected in the August 5, 2002 exhibit.
- + Order No. 29408, Idaho Public Utilities Commission, Case No. QWE-T-01-11 (Jan. 5, 2004).
- [1] TELRIC rates not reviewed in a cost docket
- [2] Market-based rates.
- [3] ICB, Individual Case Basis pricing.
- [4] The State of Idaho has retained the oversight on these rates. These rates are not under the jurisdiction of the FCC.
- [5] Rates not addressed in Cost Docket (TELRIC)
- [6] Regional TELRIC based where required.
- [7] A special request is a request by the customer to perform something that is technically feasible but the process and pricing are not yet in place.
- [8] Rates found in FCC Tariff #1
- [9] The preliminary engineering and planning costs are included in the caged and cageless space construction charges. These engineering and planning charges are also included in the caged and cageless quote preparation fees. Upon completion of the collocation construction, the quote preparation fee (QPF) will be credited to the final space construction charge for the collocation job. The credit will apply to whichever QPF is applied. This exhibit currently lists multiple QPFs based on what has been proposed on the cost docket and what was approved in the AT&T interconnection agreement. CLEC may choose either QPF at this time.
- [10] Qwest will not charge for this element until the Commission has an opportunity to review and approve a rate in a cost proceeding.
- [11] All technically feasible Vertical Switch Features are available with compatible unbundled switch ports. No monthly recurring charge applies for Basic Vertical Switch Features. Only basic Vertical Switch Features with nonrecurring charges are listed. Nonrecurring charges are applicable whenever a feature is added - whether on new installation, conversion, or change order activity. Vertical Switch Features not listed are included in the cost of the switch port and have a rate of zero for both recurring and nonrecurring charges.
- [12] The Premium Port monthly recurring charge applies in addition to the Analog or Digital Line Side Port recurring charges when Premium Features are ordered with analog or digital ports.
