BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION

**IN THE MATTER OF QWEST
CORPORATION'S REVISIONS TO ITS
STATEMENT OF GENERALLY
AVAILABLE TERMS AND CONDITIONS
(SGAT) PURSUANT TO 47 U.S.C. § 252(f)**

CASE NO. QWE-T-03-24

**NOTICE OF FILING FIFTH AMENDED,
THIRD REVISION EXHIBIT A**

Qwest Corporation ("Qwest"), through its undersigned counsel, submits this Notice of Filing Fifth Amended, Third Revision Exhibit A dated April 26, 2004 (hereinafter referred to as "amended Exhibit A"). Qwest respectfully requests that the Commission allow this amended Exhibit A to go into effect pursuant to 47 U.S.C. § 252(f)(3)(B). The amended Exhibit A includes corrections to Qwest's previous Exhibit A filings and changes that Qwest believes will make the Exhibit A a more useful resource. In this latter respect, Qwest has established formatting and sequencing for products that will be used as a uniform template for all Exhibit A's across its fourteen-state region and that will better align with the format of its Statements of Generally

Available Terms (SGATs) across its region. The following provides a high-level summary of the changes being made. Qwest is providing a “clean” and “redline” version of the amended Exhibit A, the latter of which depicts each change made in the exhibit as compared with the Fourth Amended Third Revision Exhibit A filed January 16, 2004.

1. Corrected Rates: The rates provided in Sections, 9.3.1, 9.3.3, 9.3.4, 9.3.5, 9.3.7, 9.4, 9.10, 9.11.2, 9.23.2, 9.23.3, 9.23.4, 9.23.6, 9.23.7, 9.24, and 10.7 and noted as “TELRIC rates not reviewed in a cost docket” did not properly reflect the TELRIC rates for those elements proposed in Qwest’s testimony in Docket No. QWE-T-01-11 filed November 12, 2003.

2. Numbering and Re-numbering: Amended Exhibit A differs from its predecessors in that each element is numbered to make it easier to locate. This numbering protocol is being adopted across the fourteen Qwest states and will facilitate wholesale customers’ use of Exhibit A information as they locate and compare the same or similar products in the other states in which they do business.

3. Rate Column Format: The rate columns have been reformatted to be consistent throughout the document. The “Recurring, Fixed” column is now simply titled “Recurring.” All non-distance sensitive rates are located in the “Recurring” column. The column labeled “Recurring, per Mile” contains distance sensitive rates for those elements that have a distance-sensitive component. There is no change to the “Nonrecurring” column.

4. Exhibit A Notes: Two “Note” columns have been added to align notes to the recurring, recurring per mile, and nonrecurring rates. Notes are located in these columns to identify the source of each rate. For example, in Section 9.6.1, the rate of

\$241.74 is accompanied by a note containing the letter “B” in the nonrecurring note column, which indicates this rate in was approved in Order No. 29408 in Docket QWE-T-01-11. Under 9.6.1.1, the “Recurring” rate of \$24.67 and the “Recurring, per Mile” rate of \$0.29 are accompanied by notes in their respective columns, once again indicating with a “B” that the rates were approved in Order No. 29408.

In addition, notes have been enhanced to provide additional detail regarding the source of each rate. With regard to rates that were voluntarily reduced during the 271 process, the notes now provide the dates of each of the reductions and the versions of the Exhibit A in which the reduced rates first appeared.

5. Intentionally Left Blank: This phrase is used throughout amended Exhibit A to preserve numbering consistency across the region.

6. Elements Added: Channel regeneration was mistakenly removed from the version of Exhibit A filed January 14, 2004. It has been added in amended Exhibit A in sections 8.1.7 and 9.21, although the rates for the service have been reduced to zero. Qwest reserves the right to revert to the contractual rates for the service, upon appropriate notice to affected customers.

Similarly, the recurring charge for the Network Interface Device (NID) was mistakenly removed. It has been added to amended Exhibit A in section 9.5 although as the accompanying note indicates, Qwest has not implemented this charge in its billing system. However, Qwest reserves the right to assess the charge in the future.

In section 9.3 Field Connection Point (FCP) Reclassification was added as section 9.3.7.1. This element was approved in Order No. 29408 but mistakenly never added to the current Exhibit A.

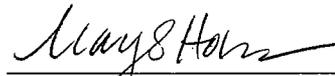

Section 9.3.5 "Trouble Isolation Charge" has been eliminated because it is duplicative of the charges found in section 9.20.

9. Corrections and Clarifications to Product Offerings: In section 9.23.6.2 and 9.23.6.3 the Exhibit A previously provided only a non-recurring charge labeled "Loop Mux 2-Wire Analog" and "Loop Mux 4-Wire Analog." These sections have now be expanded to clarify that the recurring rates associated with these charges are the de-averaged loop charges. Section 9.23.7, relating to Enhanced Extended Loop (EEL) has been similarly restructured for clarification.

10. Shared Services: The amended Exhibit A combines Loop Sharing, UNE-P Line Splitting and Loop Splitting under one section 9.4 thereby incorporating elements that were previously found in sections 9.23 and 9.25.

Qwest respectfully requests that the Commission allow the attached Third Revision Fifth Amended Exhibit A to go into effect pursuant to 47 U. S.C. §252(f)(3)(B).

Dated this 26th day of April, 2004.

NOTES:

Unless otherwise indicated, all rates are pursuant to Idaho Public Utilities Commission Dockets:

A AT&T Arbitration Docket USW-T-96-15, Order No 27738, effective September 17, 1998.

B Cost Docket QWE-T-01-11, Order No. 29408 (January 5, 2004) rates effective January 5, 2004.

Voluntary Rate Reduction, Docket USW-T-00-3, effective 6/10/02. Reductions reflected in the 5/24/02 Exhibit A.

Second Voluntary Rate Reduction, Docket USW-T-00-3, effective 6/7/02. Reductions reflected in the 7/10/02 Exhibit A.

Third Voluntary Rate Reduction, Docket USW-T-00-3, effective 12/16/02, Reductions reflected in the 10/16/02 Exhibit A

[1] TELRIC rates proposed in Cost Docket testimony filed on November 12, 2003

[2] Market-based rates.

[3] ICB, Individual Case Basis pricing.

[4] The State of Idaho has retained the oversight on these rates. These rates are not under the jurisdiction of the FCC.

[5] FCC ordered rates pursuant to the FCC's Order on Remand and Report and Order (Intercarrier Compensation for ISP-Bound Traffic) CC Docket 01-131 (FCC ISP Order), effective June 14, 2001.

[6] Effective August 1, 2003, Qwest will no longer bill the recurring and nonrecurring charges for Channel Regeneration. Qwest reserves the right to revert back to the contractual rate only after appropriate notice is given.

[7] The preliminary Quote Preparation Fees (QPF) are included in the space construction charges. Upon completion of the collocation construction, the QPF will be credited to the final space construction charge for the virtual, caged or cageless collocation job. These engineering and planning charges are also included in the Virtual, Caged and Cageless Quote Preparation Fees.

[8] The Cable Unloading / Bridge Tap Removal charge does not apply until further notice.

[9] Qwest is voluntarily reducing this rate in order to keep rate relationship with the Fiber Transport "per Pair" rate element.

[10] Qwest has not implemented this UNE rate or charge in its billing system but reserves the right to assess such a charge in the future.

[11] All technically feasible Vertical Switch Features are available with compatible unbundled switch ports. No monthly recurring charge applies for Basic Vertical Switch Features. Only basic Vertical Switch Features with nonrecurring charges are listed. Nonrecurring charges are applicable whenever a feature is added - whether on new installation, conversion, or change order activity. Vertical Switch Features not listed are included in the cost of the switch port and have a rate of zero for both recurring and nonrecurring charges.

[12] The Premium Port monthly recurring charge applies in addition to the Analog or Digital Line Side Port recurring charges when Premium Features are ordered with analog or digital ports.

NOTES:

* Unless otherwise indicated, all rates are pursuant to the Qwest and AT&T Interconnection Agreement approved by the Idaho Public Utilities Commission in Docket

Unless otherwise indicated, all rates are pursuant to Idaho Public Utilities Commission Dockets:

[A] AT&T Arbitration Docket USW-T-96-15, Order No 27738, effective September 17, 1998.

[B] Cost Docket QWE-T-01-11, Order No. 29408 (January 5, 2004), rates effective January 5, 2004.

Denotes voluntary rate reduction.

Additional reduction to the voluntary reductions reflected in the August 5, 2002 exhibit.

Voluntary Rate Reduction, Docket USW-T-00-3, effective 6/10/02. Reductions reflected in the 5/24/02 Exhibit A.

Second Voluntary Rate Reduction, Docket USW-T-00-3, effective 6/7/02. Reductions reflected in the 8/5/02 Exhibit A.

Third Voluntary Rate Reduction, Docket USW-T-00-3, effective 12/16/02. Reductions reflected in the 10/16/02 Exhibit A.

* Order No. 29408, Idaho Public Utilities Commission, Case No. QWE-T-01-11 (Jan. 5, 2004).

- [4] TELRIC rates not reviewed in a cost docket
- [1] TELRIC rates proposed in Cost Docket testimony filed on November 12, 2003
- [2] Market-based rates.
- [3] ICB, Individual Case Basis pricing.
- [4] The State of Idaho has retained the oversight on these rates. These rates are not under the jurisdiction of the FCC.
- [5] Rates not addressed in Cost Docket (TELRIC)
- [5] FCC ordered rates pursuant to the FCC's Order on Remand and Report and Order (Intercarrier Compensation for ISP-Bound Traffic) CC Docket 01-131 (FCC ISP Order), effective June 14, 2001.
- [6] Effective August 1, 2003, Qwest will no longer bill the recurring and nonrecurring charges for Channel Regeneration. Qwest reserves the right to revert back to the contractual rate only after appropriate notice is given.
- [7] The preliminary Quote Preparation Fees (QPF) are included in the space construction charges. Upon completion of the collocation construction, the QPF will be credited to the final space construction charge for the Virtual, Caged or Cageless collocation job. These engineering and planning charges are also included in the Virtual, Caged and Cageless Quote Preparation Fees.
- [8] The Cable Unloading / Bridge Tap Removal charge does not apply until further notice.
- [9] Qwest is voluntarily reducing this rate in order to keep rate relationship with the Fiber Transport "per Pair" rate element.
- [10] Qwest has not implemented this UNE rate or charge in its billing system but reserves the right to assess such a charge in the future.
- [11] All technically feasible Vertical Switch Features are available with compatible unbundled switch ports. No monthly recurring charge applies for Basic Vertical Switch Features. Only basic Vertical Switch Features with nonrecurring charges are listed. Nonrecurring charges are applicable whenever a feature is added - whether on new installation, conversion, or change order activity. Vertical Switch Features not listed are included in the cost of the switch port and have a rate of zero for both recurring and nonrecurring charges.
- [12] The Premium Port monthly recurring charge applies in addition to the Analog or Digital Line Side Port recurring charges when Premium Features are ordered with analog or digital ports.
- [6] Regional TELRIC based where required.
- [7] A special request is a request by the customer to perform something that is technically feasible but the process and pricing are not yet in place.
- [8] Rates found in FCC Tariff #1
- [9] The preliminary engineering and planning costs are included in the caged and cageless space construction charges. These engineering and planning charges are also included in the caged and cageless quote preparation fees. Upon completion of the collocation construction, the quote preparation fee (QPF) will be credited to the final space construction charge for the collocation job. The credit will apply to whichever QPF is applied. This exhibit currently lists multiple QPFs based on what has been proposed on the cost docket and what was approved in the AT&T interconnection agreement. CLEC may choose either QPF at this time.
- [10] Qwest will not charge for this element until the Commission has an opportunity to review and approve a rate in a cost proceeding.
- [11] All technically feasible Vertical Switch Features are available with compatible unbundled switch ports. No monthly recurring charge applies for Basic Vertical Switch Features. Only basic Vertical Switch Features with nonrecurring charges are listed. Nonrecurring charges are applicable whenever a feature is added - whether on new installation, conversion, or change order activity. Vertical Switch Features not listed are included in the cost of the switch port and have a rate of zero for both recurring and nonrecurring charges.
- [12] The Premium Port monthly recurring charge applies in addition to the Analog or Digital Line Side Port recurring charges when Premium Features are ordered with analog or digital ports.
