BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION

**IN THE MATTER OF QWEST
CORPORATION'S REVISIONS TO ITS
STATEMENT OF GENERALLY
AVAILABLE TERMS AND CONDITIONS
(SGAT) PURSUANT TO 47 U.S.C. § 252(f)**

**CASE NO. QWE-T-03-24
REVISIONS TO EXHIBIT "A"**

Qwest Corporation ("Qwest"), by and through its undersigned attorneys, files the attached Third Revision, Seventh Amended Exhibit A dated March 24, 2005 ("Seventh Amended Exhibit A"). The Seventh Amended Exhibit A corrects a clerical error in sections 9.23.6.4.2.1, 9.23.6.4.2.2, and 9.23.6.4.2.3 in which the wrong rates were listed for the DS1 Capable Loop in zones 1-3. The Seventh Amended Exhibit A reflects the prices for unbundled network elements (UNEs) ordered by the Commission in Case No. QWE-T-01-11 and is otherwise identical to the version of Exhibit A now in effect, with the exception of a small number of additional minor changes discussed below and shown on the "redline" version of the Seventh Amended Exhibit A, provided for the convenience of the Commission.

ORIGINAL

The DS1 Capable Loop Rates

The Third Revised Fourth Amended Exhibit A, dated January 16, 2004, reflected the rates set by the Commission in Qwest cost docket, Docket No. QWE-T-01-11. At that time Qwest did not list recurring charges for DS1 loops used in Loop MUX Combination (LMC). However, the rate listed for DS1 capable loops in zones 1-3 was correctly identified in the January 16, 2004 Exhibit A in section 9.2.3. The error that Qwest now seeks to correct was made in the Fifth Amended Third Revision Exhibit A filed April 26, 2004. At that time, Qwest added recurring charges for the loop portion of the LMC DS1 and, instead of using the standalone rates established in 9.2.3.3, Qwest inadvertently used the rates for the four-wire analog loop. Because of this error the April 26, 2004 version of Exhibit A, and the present version of Exhibit A, reflected a rate for the LMC DS1 that is substantially lower than the correct rate.

Despite this error, Qwest has negotiated 35 contracts containing LMC DS1. The rate was correctly identified for that combination in each of these 35 contracts. As a result, no Idaho customer has been billed the incorrect amount and no Idaho wholesale customer will experience a rate increase due to the change reflected in the Idaho SGAT.

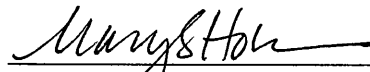

Additional Changes

As the foregoing description of the error in the LMC DS1 rate elements demonstrates, it is useful to be able to readily locate the source of the standalone rate elements when they appear as part of a combination service in the Exhibit A. To facilitate that comparison and better understanding of the Exhibit, this Seventh Amended Exhibit A contains such explanations in the following sections: 9.23.6.2.2, 9.23.6.3.2, 9.23.6.4.2 (as discussed above), 9.23.7.1.2, 9.23.7.2.2,

9.23.7.3.2, and 9.23.7.4.2. The changes are all in the form of clarifications and do not affect the prices or availability of the elements listed.

Because the change to the LCM DS1 rate corrects an error that could otherwise mislead customers, Qwest respectfully requests that the Commission accept the attached Seventh Amended Exhibit A and allow it to go into immediate effect.

Dated this 24th day of March, 2005.
