**BEFORE THE IDAHO PUBLIC UTILITIES COMMISSION**

**IN THE MATTER OF QWEST  
CORPORATION'S REVISIONS TO ITS  
STATEMENT OF GENERALLY  
AVAILABLE TERMS AND CONDITIONS  
(SGAT) PURSUANT TO 47 U.S.C. § 252(f)**

**CASE NO. QWE-T-03-24  
REVISIONS TO EXHIBIT "A"**

Qwest Corporation ("Qwest"), by and through its undersigned attorneys, files the attached Third Revision, Seventh Amended Exhibit A dated March 24, 2005 ("Seventh Amended Exhibit A"). The Seventh Amended Exhibit A corrects a clerical error in sections 9.23.6.4.2.1, 9.23.6.4.2.2, and 9.23.6.4.2.3 in which the wrong rates were listed for the DS1 Capable Loop in zones 1-3. The Seventh Amended Exhibit A reflects the prices for unbundled network elements (UNEs) ordered by the Commission in Case No. QWE-T-01-11 and is otherwise identical to the version of Exhibit A now in effect, with the exception of a small number of additional minor changes discussed below and shown on the "redline" version of the Seventh Amended Exhibit A, provided for the convenience of the Commission.

**ORIGINAL**

## **The DS1 Capable Loop Rates**

The Third Revised Fourth Amended Exhibit A, dated January 16, 2004, reflected the rates set by the Commission in Qwest cost docket, Docket No. QWE-T-01-11. At that time Qwest did not list recurring charges for DS1 loops used in Loop MUX Combination (LMC). However, the rate listed for DS1 capable loops in zones 1-3 was correctly identified in the January 16, 2004 Exhibit A in section 9.2.3. The error that Qwest now seeks to correct was made in the Fifth Amended Third Revision Exhibit A filed April 26, 2004. At that time, Qwest added recurring charges for the loop portion of the LMC DS1 and, instead of using the standalone rates established in 9.2.3.3, Qwest inadvertently used the rates for the four-wire analog loop. Because of this error the April 26, 2004 version of Exhibit A, and the present version of Exhibit A, reflected a rate for the LMC DS1 that is substantially lower than the correct rate.

Despite this error, Qwest has negotiated 35 contracts containing LMC DS1. The rate was correctly identified for that combination in each of these 35 contracts. As a result, no Idaho customer has been billed the incorrect amount and no Idaho wholesale customer will experience a rate increase due to the change reflected in the Idaho SGAT.

### **Additional Changes**

As the foregoing description of the error in the LMC DS1 rate elements demonstrates, it is useful to be able to readily locate the source of the standalone rate elements when they appear as part of a combination service in the Exhibit A. To facilitate that comparison and better understanding of the Exhibit, this Seventh Amended Exhibit A contains such explanations in the following sections: 9.23.6.2.2, 9.23.6.3.2, 9.23.6.4.2 (as discussed above), 9.23.7.1.2, 9.23.7.2.2,

9.23.7.3.2, and 9.23.7.4.2. The changes are all in the form of clarifications and do not affect the prices or availability of the elements listed.

Because the change to the LCM DS1 rate corrects an error that could otherwise mislead customers, Qwest respectfully requests that the Commission accept the attached Seventh Amended Exhibit A and allow it to go into immediate effect.

Dated this 24th day of March, 2005.

**NOTES:**

Unless otherwise indicated, all rates are pursuant to Idaho Public Utilities Commission Dockets:

- A AT&T Arbitration Docket USW-T-96-15, Order No 27738, effective September 17, 1998.
- B Cost Docket QWE-T-01-11, Order No. 29408 (January 5, 2004) rates effective January 5, 2004.

- # Voluntary Rate Reduction, Docket USW-T-00-3, effective 6/10/02. Reductions reflected in the 5/24/02 Exhibit A.
- ## Second Voluntary Rate Reduction, Docket USW-T-00-3, effective 6/7/02. Reductions reflected in the 7/10/02 Exhibit A.
- ### Third Voluntary Rate Reduction, Docket USW-T-00-3, effective 12/16/02, Reductions reflected in the 10/16/02 Exhibit A

- [1] TELRIC rates proposed in Cost Docket QWE-1-01-11 testimony filed on November 12, 2003. The case was bifurcated and the rates using this footnote are proposed in Phase 2 of the cost docket.
- [2] Market-based rates.
- [3] ICB, Individual Case Basis pricing.
- [4] The State of Idaho has retained the oversight on these rates. These rates are not under the jurisdiction of the FCC.
- [5] FCC ordered rates pursuant to the FCC's Order on Remand and Report and Order (Intercarrier Compensation for ISP-Bound Traffic) CC Docket 01-131 (FCC ISP Order), effective June 14, 2001.
- [6] Effective August 1, 2003, Qwest will no longer bill the recurring and nonrecurring charges for Channel Regeneration. Qwest reserves the right to revert back to the contractual rate only after appropriate notice is given.
- [7] The preliminary Quote Preparation Fees (QPF) are included in the space construction charges. Upon completion of the collocation construction, the QPF will be credited to the final space construction charge for the virtual, caged or cageless collocation job. These engineering and planning charges are also included in the Virtual, Caged and Cageless Quote Preparation Fees.
- [8] Effective 11/04, Qwest will no longer perform Bridge Tap and/or Load Coil Removal (Conditioning) to facilitate provisioning of its Qwest Retail DSL offering. In order to permit CLECs to provision their own xDSL Capable Loops, Qwest is now re-instituting the charge to continue Conditioning for the 2/4-Wire Unbundled Loop, ADSL Compatible Unbundled Loop, ISDN (BRI) Capable Unbundled Loop, xDSL-I Capable Unbundled Loop, Non-Commercial Line Sharing, Line Splitting, Non-Commercial Shared Distribution Loop and Loop Splitting, effective 3/14/05. Qwest can't bill the REC rate structure, but will bill customers the lower of the two rates.
- [9] Qwest is voluntarily reducing this rate in order to keep rate relationship with the Fiber Transport "per Pair" rate element.
- [10] Qwest has not implemented this UNE rate or charge in its billing system but reserves the right to assess such a charge in the future.
- [11] All technically feasible Vertical Switch Features are available with compatible unbundled switch ports. No monthly recurring charge applies for Basic Vertical Switch Features. Only basic Vertical Switch Features with nonrecurring charges are listed. Nonrecurring charges are applicable whenever a feature is added - whether on new installation, conversion, or change order activity. Vertical Switch Features not listed are included in the cost of the switch port and have a rate of zero for both recurring and nonrecurring charges.
- [12] The Premium Port monthly recurring charge applies in addition to the Analog or Digital Line Side Port recurring charges when Premium Features are ordered with analog or digital ports.

**NOTES:**

Unless otherwise indicated, all rates are pursuant to Idaho Public Utilities Commission Dockets:

A AT&T Arbitration Docket USW-T-96-15, Order No 27738, effective September 17, 1998.

B Cost Docket QWE-T-01-11, Order No. 29408 (January 5, 2004) rates effective January 5, 2004.

# Voluntary Rate Reduction, Docket USW-T-00-3, effective 6/10/02. Reductions reflected in the 5/24/02 Exhibit A.

## Second Voluntary Rate Reduction, Docket USW-T-00-3, effective 6/7/02. Reductions reflected in the 7/10/02 Exhibit A.

### Third Voluntary Rate Reduction, Docket USW-T-00-3, effective 12/16/02, Reductions reflected in the 10/16/02 Exhibit A

[1] TELRIC rates proposed in Cost Docket QWE-1-01-11 testimony filed on November 12, 2003. The case was bifurcated and the rates using this footnote are proposed in Phase 2 of the cost docket.

[2] Market-based rates.

[3] ICB, Individual Case Basis pricing.

[4] The State of Idaho has retained the oversight on these rates. These rates are not under the jurisdiction of the FCC.

[5] FCC ordered rates pursuant to the FCC's Order on Remand and Report and Order (Intercarrier Compensation for ISP-Bound Traffic) CC Docket 01-131 (FCC ISP Order), effective June 14, 2001.

[6] Effective August 1, 2003, Qwest will no longer bill the recurring and nonrecurring charges for Channel Regeneration. Qwest reserves the right to revert back to the contractual rate only after appropriate notice is given.

[7] The preliminary Quote Preparation Fees (QPF) are included in the space construction charges. Upon completion of the collocation construction, the QPF will be credited to the final space construction charge for the virtual, caged or cageless collocation job. These engineering and planning charges are also included in the Virtual, Caged and Cageless Quote Preparation Fees.

[8] Effective 11/04, Qwest will no longer perform Bridge Tap and/or Load Coil Removal (Conditioning) to facilitate provisioning of its Qwest Retail DSL offering. In order to permit CLECs to provision their own xDSL Capable Loops, Qwest is now re-instituting the charge to continue Conditioning for the 2/4-Wire Unbundled Loop, ADSL Compatible Unbundled Loop, ISDN (BRI) Capable Unbundled Loop, xDSL-I Capable Unbundled Loop, Non-Commercial Line Sharing, Line Splitting, Non-Commercial Shared Distribution Loop and Loop Splitting, effective 3/14/05. Qwest can't bill the REC rate structure, but will bill customers the lower of the two rates.

[9] Qwest is voluntarily reducing this rate in order to keep rate relationship with the Fiber Transport "per Pair" rate element.

[10] Qwest has not implemented this UNE rate or charge in its billing system but reserves the right to assess such a charge in the future.

[11] All technically feasible Vertical Switch Features are available with compatible unbundled switch ports. No monthly recurring charge applies for Basic Vertical Switch Features. Only basic Vertical Switch Features with nonrecurring charges are listed. Nonrecurring charges are applicable whenever a feature is added - whether on new installation, conversion, or change order activity. Vertical Switch Features not listed are included in the cost of the switch port and have a rate of zero for both recurring and nonrecurring charges.

[12] The Premium Port monthly recurring charge applies in addition to the Analog or Digital Line Side Port recurring charges when Premium Features are ordered with analog or digital ports.
