In these cases, the Commission is asked to approve Amendments to separate Interconnection Agreements between Qwest Corporation and Matrix Telecom, Inc.; Qwest Corporation and Trans National Communications, International, Inc.; Qwest Corporation and Lightyear Network Solutions, LLC; Qwest Corporation and OrbitCom, Inc.; and Qwest

Corporation and ACN Communication Services, Inc. With this Order, the Commission approves the Amendments to the parties' Interconnection Agreements.

BACKGROUND

Under the provisions of the federal Telecommunications Act of 1996, interconnection agreements, including amendments thereto, must be submitted to the Commission for approval. 47 U.S.C. § 252(e)(1). The Commission may reject an agreement adopted by negotiations only if it finds that the agreement: (1) discriminates against a telecommunications carrier not a party to the agreement; or (2) implementation of the agreement is not consistent with the public interest, convenience and necessity. 47 U.S.C. § 252(e)(2)(A). As the Commission noted in Order No. 28427, companies voluntarily entering into interconnection agreements "may negotiate terms, prices and conditions that do not comply with either the FCC rules or with the provision of Section 251(b) or (c)." Order No. 28427 at 11 (emphasis in original). This comports with the FCC's statement that "a state commission shall have authority to approve an interconnection agreement adopted by negotiation even if the terms of the agreement do not comply with the requirements of [Part 51]." 47 C.F.R. § 51.3.

THE APPLICATIONS

1. Qwest Corporation and Matrix Telecom, Inc., Case No. QWE-T-09-13. STAFF RECOMMENDATION

Staff reviewed the foregoing Applications and did not find any terms or conditions that it considers to be discriminatory or contrary to the public interest. Staff believes that the

Amendments to the Interconnection Agreements are consistent with the pro-competitive policies of this Commission, the Idaho Legislature, and the federal Telecommunications Act. Accordingly, Staff recommended that the Commission approve the proposed Amendments to the parties' Interconnection Agreements.

COMMISSION DECISION

Under the terms of the Telecommunications Act, interconnection agreements, including amendments thereto, must be submitted to the Commission for approval. 47 U.S.C. § 252(e)(1). However, the Commission's review is limited. The Commission may reject an agreement adopted by negotiation only if it finds that the agreement discriminates against a telecommunications carrier not a party to the agreement or implementation of the agreement is not consistent with the public interest, convenience and necessity. *Id.*

Based upon our review of the Applications and the Staff's recommendations, the Commission finds that the Amendments to the Agreements are consistent with the public interest, convenience and necessity and do not discriminate. Therefore, the Commission finds that the Amendments, reviewed by Staff and more fully described above, should be approved. Approval of the Agreements do not negate the responsibility of either party to these Agreements to obtain a Certificate of Public Convenience and Necessity if they are offering local exchange services or to comply with *Idaho Code* §§ 62-604 and 62-606 if they are providing other non-basic local telecommunications services as defined by *Idaho Code* § 62-603.
