

EXHIBIT 3

CONDUIT SYSTEM OCCUPANCY LICENSE

accordance with the terms and conditions of the License Agreement No. I-001C, this
Conduit Occupancy License Number 88-2 is hereby granted this 11th day
of July 1988. This license allows Licensee to occupy Licensor's conduit
system as indicated on the attached Form A-3, with cable, equipment and facilities
specified on the attached Forms A-4 and A-5.

This license shall continue for an initial term of twenty (20) years commencing on the
license date first written above. This license shall continue after the initial term for
successive terms of five (5) years unless terminated by either party hereto.

Licensor estimates completion of the make-ready work hereunder to be on or before
NA, 1988.

FEES AND CHARGES

A) General

- 1) Occupancy fees commence on the first day of the calendar month during which AT&T begins
the placement of their facilities in the licensed innerduct, or June 1, 1990, which
ever date comes first.
- 2) The total occupancy fees due hereunder, shall be based upon the number of
duct/innerduct feet of duct for which licenses have been issued.
- 3) For the purpose of determining the duct feet chargeable, the duct considered occupied
shall be measured from the:
 - (i) center to center of adjacent manholes, or
 - (ii) center of manhole to the end of a duct not terminated in a manhole.

B) Charges applicable under this license are as follows:

Recurring Charge(s): For one (1) innerduct
From Birch to Filmore Street in Jerome, Idaho.
4,652 feet @ 3.25/ft./yr. \$15,119.00/yr.

Nonrecurring Charge(s), (such as make-ready fees, supervision fees):

None

originating from coin telephones where the computer requests deposit of coins, additional End User Customer key actions, recording of End User Customer voice, etc.

10.7.3.3 Call Branding Non-recurring Charge. Qwest will charge to CLEC a non-recurring setup and recording fee for establishing Call Branding and loading each Switch with CLEC's branded message. CLEC must pay such non-recurring charges prior to commencement of the service. The non-recurring set-up and recording charge will apply each time the CLEC's brand message is changed. The non-recurring charge to load the Switches with the CLEC's branded message will be assessed each time there is any change to the Switch.

10.7.4 Ordering Process

CLEC will order Operator Services by completing the "Qwest Operator Services/Directory Assistance Questionnaire for Local Service Providers." Copies of this questionnaire may be obtained from CLEC's designated Qwest account manager.

10.7.5 Billing

10.7.5.1 Qwest will track usage and bill CLEC for the calls placed by CLEC's End User Customers and facilities.

10.7.5.2 Qwest will compute CLEC's invoice based on both Option A (Price Per Message) and Option B (Price Per Work Second and Computer Handled Calls). Qwest will charge CLEC whichever option results in a lower charge.

10.7.5.3 If, due to equipment malfunction or other error, Qwest does not have available the necessary information to compile an accurate Billing statement, Qwest may render a reasonably estimated bill, but shall notify CLEC of the methods of such estimate and cooperate in good faith with CLEC to establish a fair, equitable estimate. Qwest shall render a bill reflecting actual billable quantities when and if the information necessary for the Billing statement becomes available.

10.8 Access to Poles, Ducts, Conduits, and Rights of Way

10.8.1 Description

10.8.1.1 Pole Attachments – Where it has ownership or control to do so, Qwest will provide CLEC with access to available pole attachment space for the placing of facilities for the purpose of transmitting Telecommunications Services.

10.8.1.1.1 The term pole attachment means any attachment by CLEC to a pole owned or controlled by Qwest.

10.8.1.2 Ducts and Conduits – Where it has ownership or control to do so, Qwest will provide CLEC with access to available ducts/conduits for the purpose of placing facilities for transmitting Telecommunications Services. A spare duct/conduit will be leased for copper facilities only, and an innerduct for the purpose of placing fiber. CLEC may place innerduct in an empty duct/conduit. Control of CLEC-installed spare innerduct shall vest in Qwest immediately upon installation; ownership of such innerduct shall vest to Qwest

if and when CLEC abandons such innerduct.

10.8.1.2.1 The terms duct and conduit mean a single enclosed raceway for conductors, cable and/or wire. Duct and conduit may be in the ground, may follow streets, bridges, public or private ROW or may be within some portion of a multi-unit building. Within a multi-unit building, duct and conduit may traverse building entrance facilities, building entrance links, equipment rooms, remote terminals, cable vaults, telephone closets or building riser. The terms Duct and Conduit include riser conduit.

10.8.1.2.2 The term innerduct means a duct-like raceway smaller than a duct/conduit that is inserted into a duct/conduit so that the duct may typically carry three cables.

10.8.1.3 Rights of Way (ROW) – Where it has ownership or control to do so, Qwest will provide to CLEC, via an Access Agreement in the form of Attachment 4 to Exhibit D, access to available ROW for the purpose of placing telecommunications facilities. ROW includes land or other property owned or controlled by Qwest and may run under, on, above, across, along or through public or private property or enter multi-unit buildings.

10.8.1.3.1 ROW means a real property interest in privately-owned real property, but expressly excluding any public, governmental, federal or Native American, or other quasi-public or non-private lands, sufficient to permit Qwest to place telecommunications facilities on such real property; such property owner may permit Qwest to install and maintain facilities under, on, above, across, along or through private property or enter multi-unit buildings. Within a multi-unit building, a ROW includes a pathway that is actually used or has been specifically designated for use by Qwest as part of its transmission and distribution network where the boundaries of the pathway are clearly defined either by written specifications or unambiguous physical demarcation.

10.8.1.4 Intentionally Left Blank.

10.8.1.5 The phrase "ownership or control to do so" means the legal right, as a matter of State law, to (i) convey an interest in real or personal property, or (ii) afford access to third parties as may be provided by the landowner to Qwest through express or implied agreements, or through Applicable Rules as defined in this Agreement.

10.8.2 Terms and Conditions

Qwest shall provide CLEC non-discriminatory access to poles, ducts, conduit and rights of way on terms and conditions found in the Revised Qwest Right of Way, Pole Attachment and/or Duct/Innerduct Occupancy General Information Document, attached hereto as Exhibit D. Qwest will not favor itself over CLEC when Provisioning access to poles, ducts, conduits and rights of way (ROW). Qwest shall not give itself preference when assigning space.

10.8.2.1 Subject to the provisions of this Agreement, Qwest agrees to issue to CLEC authorization for CLEC to attach, operate, maintain, rearrange, transfer and remove at its sole expense its facilities on poles/duct/innerduct or ROW owned or controlled in whole or in part by Qwest, subject to Orders placed by CLEC. Any and all rights granted to CLEC shall be subject to and subordinate to any future local, State and/or federal

requirements.

10.8.2.2 Qwest will rely on such codes as the National Electrical Safety Code (NESC) to prescribe standards with respect to capacity, safety, reliability, and general engineering principles.

10.8.2.3 Federal requirements, such as those imposed by Federal Energy Regulatory Commission (FERC) and Occupational Safety and Health Administration (OSHA), will continue to apply to the extent such requirements affect requests for attachments or occupancy to Qwest facilities under Section 224(f)(1) of the Act.

10.8.2.4 CLEC shall provide access to a map of the requested poles/duct/innerduct/ROW route, including estimated distances between major points, the identification and location of the poles/duct/innerduct and ROW and a description of CLEC's facilities. Qwest agrees to provide to CLEC access to relevant plats, maps, engineering records and other data within ten (10) business days of receiving a request for such information, except in the case of extensive requests. Extensive requests involve the gathering of plats from more than one (1) location, span more than five (5) Wire Centers, or consist of ten (10) or more intra-Wire Center requests submitted simultaneously. Responses to extensive requests will be provided within a reasonable interval, not to exceed forty-five (45) Days.

10.8.2.5 Except as expressly provided herein, or in the Pole Attachment Act of 1934 as amended and its regulations and rules, or in any applicable State or municipal laws, nothing herein shall be construed to compel Qwest to construct, install, modify or place any poles/duct/innerduct or other facility for use by CLEC.

10.8.2.6 Qwest retains the right to determine the availability of space on poles/duct/innerduct, duct, conduit and ROW consistent with 47 USC § 224 and FCC orders, rules and regulations pursuant to 47 USC § 224. In the event Qwest determines that rearrangement of the existing facilities on poles, innerduct, duct/conduit and ROW is required before CLEC's facilities can be accommodated, the actual cost of such modification will be included in CLEC's nonrecurring charges for the associated Order (Make-Ready fee). When modifications to a Qwest spare duct/conduit include the placement of innerduct, Qwest or CLEC will install the number of innerduct required to fill the duct/conduit to its full capacity.

10.8.2.7 Qwest shall make manhole ingress and egress for duct/innerduct access available to CLEC. Qwest will perform a feasibility study to determine whether to provide a stub out via the pre-constructed knock out within the manhole, or to perform a core drill of the manhole.

10.8.2.8 Where such authority does not already exist, CLEC shall be responsible for obtaining the necessary legal authority to occupy ROW, and/or poles/duct/innerduct on governmental, federal, Native American, and private rights of way. CLEC shall obtain any permits, licenses, bonds, or other necessary legal authority and permission, at CLEC's sole expense, in order to perform its obligations under this Agreement. CLEC shall contact all owners of public and private rights-of-way to obtain the permission required to perform the work prior to entering the property or starting any work thereon. See Section 10.8.4. CLEC shall comply with all conditions of rights-of-way and permits. Once such permission is obtained, all such work may be performed by Qwest or CLEC

at the option of CLEC.

10.8.2.9 Access to a Qwest Central Office manhole will be permitted where Technically Feasible. If space is available, Qwest will allow access through the Central Office manhole to the POI (Point of Interconnection). There shall be a presumption that there shall be no fiber splices allowed in the Central Office manhole. However, where CLEC can establish the necessity and technical feasibility of splicing in the Central Office manhole, such action shall be permitted.

10.8.2.10 Replacement/Modification/Installation - If CLEC requests Qwest to replace or modify existing poles/duct/innerduct to increase its strength or capacity for the sole benefit of CLEC, CLEC shall pay Qwest the total actual replacement cost, Qwest's actual cost to transfer its attachments to new poles/duct/innerduct, as necessary, and the actual cost for removal (including actual cost of destruction) of the replaced poles/duct/innerduct, if necessary. Ownership of new poles/duct/innerduct shall vest to Qwest.

10.8.2.10.1 Upon request, Qwest shall permit CLEC to install poles/duct/innerduct. Qwest reserves the right to reject any non-conforming replacement pole/duct/innerduct installed by CLEC that do not conform to the NESC, OSHA or local ordinances.

10.8.2.10.2 To the extent that a modification is incurred for the benefit of multiple parties, CLEC shall pay a proportionate share of the total actual cost based on the ratio of the amount of new space occupied by the facilities of CLEC to the total amount of space occupied by all parties including Qwest or its Affiliates participating in the modification. Parties who do not initiate, request or receive additional space from a modification, are not required to share in the cost of the modification. CLEC, Qwest or any other party that uses a modification as an opportunity to bring its facilities into compliance with applicable safety or other requirements will be deemed to be sharing in the modification and will be responsible for its share of the modification cost. Attaching entities will not be responsible for sharing in the cost of governmentally mandated pole or other facility modification.

10.8.2.10.3 The modifying party or parties may recover a proportionate share of the modification costs from parties that later are able to obtain access as a result of the modification. The proportionate share of the subsequent attacher will be reduced to take account of depreciation to the pole or other facility that has occurred since the modification. The modifying party or parties seeking to recover modification costs from parties that later obtain attachments shall be responsible for maintaining all records regarding modification costs. Qwest shall not be responsible for maintaining records regarding modification costs on behalf of attaching entities.

10.8.2.11 Notification of modifications initiated by or on behalf of Qwest and at Qwest's expense shall be provided to CLEC at least sixty (60) Days prior to beginning modifications. Such notification shall include a brief description of the nature and scope of the modification. If CLEC does not respond to a requested rearrangement of its facilities within sixty (60) Days after receipt of written notice from Qwest requesting rearrangement, Qwest may perform or have performed such rearrangement and CLEC

shall pay the actual cost thereof. No such notice shall be required in emergency situations or for routine maintenance of poles/duct/innerduct completed at Qwest's expense.

10.8.2.12 Qwest reserves the right to make an on-site/final construction inspection of CLEC's facilities occupying the poles/duct/innerduct system. CLEC shall reimburse Qwest for the actual cost of such inspections except where specified in this Section.

10.8.2.13 When final construction inspection by Qwest has been completed, CLEC shall correct such non-complying conditions within the reasonable period of time specified by Qwest in its written notice. If corrections are not completed within the specified reasonable period, occupancy authorizations for the ROW, poles/duct/innerduct system where non-complying conditions remain uncorrected shall suspend forthwith, regardless of whether CLEC has energized the facilities occupying said poles/duct/innerduct or ROW system and CLEC shall remove its facilities from said poles/duct/innerduct or ROW in accordance with the provisions of this Section, provided, however, if the corrections physically cannot be made within such specified time, and CLEC has been diligently prosecuting such cure, CLEC shall be granted a reasonable additional time to complete such cure. Qwest may deny further occupancy authorization to CLEC until such non-complying conditions are corrected or until CLEC's facilities are removed from the poles/duct/innerduct system where such non-complying conditions exist. If agreed between both Parties, Qwest shall perform or have performed such corrections and CLEC shall pay Qwest the actual cost of performing such work. Subsequent inspections to determine if appropriate corrective actions have been taken may be made by Qwest.

10.8.2.14 Once CLEC's facilities begin occupying the poles/duct/innerduct or ROW system, Qwest may perform a reasonable number of inspections. Qwest shall bear the cost of such inspections unless the results of the inspection reveal a material violation or hazard, or that CLEC has in any other way failed to comply with the provisions of Section 10.8.2.20; in which case CLEC shall reimburse Qwest the costs of inspections and re-inspections, as required. CLEC's representative may accompany Qwest on such field inspections. The cost of periodic inspection or any special inspections found necessary due to the existence of sub-standard or unauthorized occupancies shall be billed separately.

10.8.2.15 The costs of inspections made during construction and/or the final construction survey and subsequent inspection shall be billed to CLEC upon completion of the inspections.

10.8.2.16 Final construction, subsequent, and periodic inspections or the failure to make such inspections, shall not relieve CLEC of any responsibilities, obligations, or liability assigned under this Agreement.

10.8.2.17 CLEC may use individual workers of its choice to perform any work necessary for the attaching of its facilities so long as such workers have the same qualifications and training as Qwest's workers. CLEC may use any contractor approved by Qwest to perform Make-Ready Work.

10.8.2.18 If Qwest terminates an Order for cause, or if CLEC terminates an Order without cause, subject to 10.8.4.4.4, CLEC shall pay termination charges equal to the

amount of fees and charges remaining on the terminated Order(s) and shall remove its facilities from the poles/duct/innerduct within sixty (60) Days, or cause Qwest to remove its facilities from the poles/duct/innerduct at CLEC's expense; provided, however, that CLEC shall be liable for and pay all fees and charges provided for in this Agreement to Qwest until CLEC's facilities are physically removed. "Cause" as used herein shall include CLEC's use of its facilities in material violation of any applicable law or in aid of any unlawful act or making an unauthorized modification to Qwest's poles/duct/innerduct, or, in the case of ROW, any act or omission that violates the terms and conditions of either (a) the Access Agreement by which Qwest conveys a right of access to the ROW to CLEC, or (b) the instrument granting the original ROW to Qwest or its predecessor.

10.8.2.19 Qwest may abandon or sell any poles/innerduct, duct/conduit or ROW at any time by giving written notice to CLEC. Any poles, innerduct, duct/conduit or ROW that is sold, will be sold subject to all existing legal rights of CLEC. Upon abandonment of poles/innerduct, duct/conduit or ROW, and with the concurrence of the other joint user(s), if necessary, CLEC shall, within sixty (60) Days of such notice, either: 1) continue to occupy the poles/innerduct, duct/conduit or ROW pursuant to its existing rights under this Agreement if the poles/innerduct, duct/conduit, or ROW is purchased by another party; 2) purchase the poles/innerduct, duct/conduit or ROW from Qwest at the current market value; or 3) remove its facilities therefrom. Failure to explicitly elect one of the foregoing options within sixty (60) Days shall be deemed an election to purchase the poles/innerduct, duct/conduit or ROW at the current market value if no other party purchased the poles/innerduct, duct/conduit or ROW within this sixty (60) Day period.

10.8.2.20 CLEC's facilities shall be placed and maintained in accordance with the requirements and specifications of the current applicable standards of Telcordia Manual of Construction Standards, the National Electrical Code, the National Electrical Safety Code, and the rules and regulations of the Occupational Safety and Health Act, all of which are incorporated by reference, and any governing authority having jurisdiction. Where a difference in specifications exists, the more stringent shall apply. Notwithstanding the foregoing, CLEC shall only be held to such standard as Qwest, its Affiliates or any other Telecommunications Carrier is held. Failure to maintain facilities in accordance with the above requirements or failure to correct as provided in Section 10.8.2.13 shall be cause for termination of the Order. CLEC shall in a timely manner comply with all requests from Qwest to bring its facilities into compliance with these terms and conditions.

10.8.2.21 Should Qwest under the provisions of this Agreement remove CLEC's facilities from the poles/duct/innerduct covered by any Order, Qwest will deliver the facilities removed upon payment by CLEC of the cost of removal, storage and delivery, and all other amounts due Qwest. If CLEC removes facilities from poles/duct/innerduct for other than repair or maintenance purposes, no replacement on the poles/duct/innerduct shall be made until all outstanding charges due Qwest for previous occupancy have been paid in full. CLEC shall advise Qwest in writing as to the date on which the removal of facilities from the poles/duct/innerduct has been completed.

10.8.2.22 If any facilities are found attached to poles/duct/innerduct for which no order is in effect, Qwest, without prejudice to its other rights or remedies under this Agreement, may assess a charge and CLEC agrees to pay the lesser of (a) the annual fee per pole or per innerduct run between two (2) manholes for the number of years sine

the most recent inventory, or (b) five times the annual fee per pole or per innerduct run between two (2) manholes. In addition, CLEC agrees to pay (a) interest on these fees at a rate set for the applicable time period by the Internal Revenue Service for individual underpayments pursuant to Section 6621 of the Internal Revenue Service Code (25 U.S.C. § 6621, Rev. Rul. 2000-30, 2000-25 IRS 1262), and (b) the cost of any audit required to identify unauthorized CLEC attachments. Qwest shall waive half the unauthorized attachment fee if the following conditions are met: (1) CLEC cures such unauthorized attachment (by removing it or submitting a valid Order for the attachment in the form of Attachment 2 of Exhibit D), within thirty (30) Days of written notification from Qwest of the unauthorized attachment; and (2) the unauthorized attachment did not require Qwest to take curative measures itself (e.g., pulling additional innerduct) prior to cure by CLEC, (3) CLEC reimburses Qwest for cost of audit, or portion thereof, which discovered the unauthorized attachment. Qwest shall also waive the unauthorized attachment fee if the unauthorized attachment arose due to error by Qwest rather than CLEC. CLEC is required to submit in writing, within ten (10) business days after receipt of written notification from Qwest of the unauthorized occupancy, a poles/duct/innerduct application. If such application is not received by Qwest within the specified time period, CLEC will be required to remove its unauthorized facility within thirty (30) Days of the final date for submitting the required application, or Qwest may remove CLEC's facilities without liability, and the cost of such removal shall be borne by CLEC.

10.8.2.23 No act or failure to act by Qwest with regard to an unauthorized occupancy shall be deemed as the authorization of the occupancy. Any subsequently issued authorization shall not operate retroactively or constitute a waiver by Qwest of any of its rights or privileges under this Agreement or otherwise. CLEC shall be subject to all liabilities of the Agreement in regard to said unauthorized occupancy from its inception.

10.8.2.24 Qwest will provide CLEC non-discriminatory access to poles, innerducts, ducts/conduits and ROW pursuant to 47 USC § 224 and FCC orders, rules and regulations pursuant to 47 USC § 224. In the event of a conflict between this Agreement, on one hand, and 47 USC § 224 and FCC orders, rules and regulations pursuant to 47 USC § 224, on the other, 47 USC § 224 and FCC orders, rules and regulations pursuant to 47 USC § 224 shall govern. Further, in the event of a conflict between Exhibit D, on one hand, and this Agreement or 47 USC § 224 and FCC orders, rules and regulations pursuant to 47 USC § 224, on the other, this Agreement or 47 USC § 224 and FCC orders, rules and regulations pursuant to 47 USC § 224 shall govern, provided however, that any Access Agreement that has been duly executed, acknowledged and recorded in the real property records for the county in which the ROW is located shall govern in any event pursuant to its terms.

10.8.2.25 Nothing in this Agreement shall require Qwest to exercise eminent domain on behalf of CLEC.

10.8.2.26 Upon CLEC request, Qwest will certify to a landowner with whom Qwest has an ROW agreement, the following:

10.8.2.26.1 that the ROW agreement with Qwest does not preclude the landowner from entering into a separate ROW agreement with CLEC; and

10.8.2.26.2 that there will be no penalty under the agreement between the landowner and Qwest if the landowner enters into a ROW agreement with CLEC.

10.8.2.27 For purposes of permitting CLEC to determine whether Qwest has ownership or control over duct/conduit or ROW within a specific multi-dwelling unit, if CLEC requests a copy of an agreement between Qwest and the owner of a specific multi-dwelling unit that grants Qwest access to the multi-dwelling unit, Qwest will provide the agreement to CLEC pursuant to the terms of this Section. CLEC will submit a completed Attachment 1.A from Exhibit D that identifies a specific multi-unit dwelling or route for each agreement.

10.8.2.27.1 Upon receipt of a completed Attachment 1.A, Qwest will prepare and return an MDU information matrix, within ten (10) Days, which will identify (a) the owner of the multi-dwelling unit as reflected in Qwest's records, and (b) whether or not Qwest has a copy of an agreement that provides Qwest access to the multi-dwelling unit in its possession. Qwest makes no representations or warranties regarding the accuracy of its records, and CLEC acknowledges that the original property owner may not be the current owner of the property.

10.8.2.27.2 Qwest grants a limited waiver of any confidentiality rights it may have with regards to the content of the agreement, subject to the terms and conditions in Section 10.8.2.27.3 and the Consent to Disclosure form. Qwest will provide to CLEC a copy of an agreement listed in the MDU information matrix that has not been publicly recorded after CLEC obtains authorization for such disclosure from the third party owner(s) of the real property at issue by presenting to Qwest an executed version of the Consent to Disclosure form that is included in Attachment 4 to Exhibit D of this Agreement. In lieu of submission of the Consent to Disclosure form, CLEC must comply with the indemnification requirements in Section 10.8.4.1.3.

10.8.2.27.3 As a condition of its limited waiver of its right to confidentiality in an agreement that provides Qwest access to a multi-dwelling unit that Qwest provides to CLEC or that CLEC obtains from the multi-dwelling unit owner or operator, Qwest shall redact all dollar figures from copies of agreements that have not been publicly recorded that Qwest provides to CLEC and shall require that the multi-dwelling unit owner or operator make similar redactions prior to disclosure of the agreement.

10.8.2.27.4 In all instances, CLEC will use agreements only for the following purposes: (a) to determine whether Qwest has ownership or control over duct, conduits, or rights-of-way within the property described in the agreement; (b) to determine the ownership of wire within the property described in the agreement; or (c) to determine the Demarcation Point between Qwest facilities and the Owner's facilities in the property described in the agreement. CLEC further agrees that CLEC shall not disclose the contents, terms, or conditions of any agreement provided pursuant to Section 10.8 to any CLEC agents or employees engaged in sales, marketing, or product management efforts on behalf of CLEC.

10.8.3 Rate Elements

Qwest fees for attachments are in accordance with Section 224 of the Act and FCC orders, rules and regulations promulgated thereunder, as well as the rates established by the Commission including the following rates, are reflected in Exhibit A.

10.8.3.1 Inquiry Fee. A non-refundable pre-paid charge used to recover the costs associated with performing an internal record review to determine if a requested route and/or facility is available, or with respect to ROW, to determine the information necessary to create the ROW matrix, which identifies, for each ROW, the name of the original grantor and the nature of the ROW (i.e., publicly recorded and non-recorded) and the MDU matrix, which identifies each requested legal agreement between Qwest and a third party who has a multi-unit building in Qwest's possession that relates to Telecommunications Services provided to or through real property owned by the third party (MDU Agreement) and, for each such MDU Agreement, the name of the third party. Separate Inquiry Fees apply for ROW, poles and duct/conduit/innerduct.

10.8.3.2 Field Verification Fee/Access Agreement Preparation Fee. In the case of poles and duct/innerduct, the Field Verification Fee is a non-refundable pre-paid charge which recovers the estimated actual costs for a field survey verification required for a route and to determine scope of any required Make-Ready work. Separate Field Verification Fees apply for poles and manholes. In the case of ROW, the Access Agreement Preparation Fee is a non-refundable, pre-paid charge which recovers the estimated actual costs for preparation of the Access Agreement for each ROW requested by CLEC. Field Verification and Access Agreement Preparation Fees shall be billed in advance.

10.8.3.3 Make-Ready Fee. A pre-paid non-refundable (other than true-up) charge which recovers the cost of necessary work required to make the requested facility/ROW available for access. For innerduct, this could include, but is not limited to, the placing of innerduct in conduit/duct systems or core drilling of manholes. For pole attachment requests, this could include, but is not limited to, the replacement of poles to meet required clearances over roads or land. For ROW, this Make-Ready could include, but is not limited to, personnel time, including attorney time. With respect to ROW, Make-Ready work refers to legal or other investigation or analysis arising out of CLEC's failure to comply with the process described in Exhibit D for ROW, or other circumstances giving rise to such work beyond the simple preparation of one or more Access Agreements. The estimated pre-paid fee shall be billed in advance.

10.8.3.4 Pole Attachment Fee. A pre-paid fee which is charged for the occupancy, including during any Make-Ready period, of one (1) foot of pole space (except for antenna attachment which requires two (2) feet). This fee shall be annual unless CLEC requests that it be semi-annual.

10.8.3.5 Innerduct Occupancy Fee. A pre-paid fee which is charged for the occupancy, including during any Make-Ready period, of an innerduct on a per foot basis. This fee shall be annual unless CLEC requests that it be semi-annual.

10.8.3.6 Access Agreement Consideration. A pre-paid fee which constitutes consideration for conveying access to the ROW to CLEC. This fee shall be a one-time (i.e. nonrecurring) fee.

10.8.4 Ordering

There are two (2) steps required before placing an Order for access to ROW, Duct/Innerduct and Pole Attachment: Inquiry Review and Field Verification.

10.8.4.1 Inquiry Reviews. Upon receipt of an inquiry regarding ROW access, Pole Attachment or Duct/Innerduct Occupancy, Qwest will provide CLEC with Exhibit D. CLEC will review the documents and provide Qwest with maps of the desired area indicating the routes and entrance points for proposed attachment, proposed occupancy or proposed CLEC construction on Qwest owned or controlled poles, duct/innerduct and ROW as well as the street addresses of any multi-unit buildings upon or through which CLEC proposes construction on ROW owned or controlled by Qwest. CLEC will include the appropriate Inquiry Fee with a completed Attachment 1.A from Exhibit D.

10.8.4.1.1 Inquiry Review – Duct/Conduit/Innerduct. Qwest will complete the database inquiry and prepare a duct/conduit structure diagram (referred to as a "Flatline") which shows distances and access points (such as manholes). Along with the Flatline will be estimated costs for field verification of available facilities. These materials will be provided to the CLEC within ten (10) Days or within the time frames of the applicable federal or State law, rule or regulation.

10.8.4.1.2 Inquiry Review – Poles. Qwest will provide the name and contact number for the appropriate local field engineer for joint validation of the poles and route and estimated costs for field verification on Attachment 1.B of Exhibit D within ten (10) Days of the request.

10.8.4.1.3 Inquiry Review – ROW. Qwest shall, upon request of CLEC, provide the ROW matrix, the MDU matrix and a copy of all publicly recorded agreements listed in those matrices to CLEC within ten (10) Days of the request. Qwest will provide to CLEC a copy of agreements listed in the matrices that have not been publicly recorded if CLEC obtains authorization for such disclosure from the third party owner(s) of the real property at issue by an executed version of the Consent to Disclosure form, which is included in Exhibit D, Attachment 4. Qwest may redact all dollar figures from copies of agreements listed in the matrices that have not been publicly recorded that Qwest provides to CLEC. Any dispute over whether terms have been redacted appropriately shall be resolved pursuant to the dispute resolution procedures set forth in this Agreement. Alternatively, in order to secure any agreement that has not been publicly recorded, a CLEC may provide a legally binding and satisfactory agreement to indemnify Qwest in the event of any legal action arising out of Qwest's provision of such agreement to CLEC. In that event, CLEC shall not be required to provide an executed Consent to Disclosure form. Qwest makes no warranties concerning the accuracy of the information provided to CLEC; CLEC expressly acknowledges that Qwest's files contain only the original ROW instruments, and that the current owner(s) of the fee estate may not be the party identified in the document provided by Qwest.

10.8.4.2 Field Verification – Poles Duct/Innerduct and Access Agreement Preparation (ROW). CLEC will review the inquiry results and determine whether to proceed with field verification for poles/ducts or Access Agreement preparation for ROW. If field verification or Access Agreement preparation is desired, CLEC will sign and return Attachment 1.B of Exhibit D along with a check for the relevant verification fee (Field Verification Fee or Access Agreement Preparation Fee) plus \$10.00 per Access Agreement as consideration for the Access Agreement. Upon payment of the relevant fee and Access Agreement consideration, if applicable, Qwest will provide, as applicable: depending on whether the request is for duct/innerduct/conduit, ROW or

poles : (a) in the case of innerduct/duct/conduit, a field survey and site investigation of the innerduct/duct/conduit, including the preparation of distances and drawings, to determine availability of existing innerduct/duct/conduit; identification of Make-Ready costs required to provide space; the schedule in which the Make-Ready work will be completed; and, the annual recurring prices associated with the attachment of facilities; (b) in the case of ROW, the completed Access Agreement(s), executed and acknowledged by Qwest. Upon completion of the Access Agreement(s) by CLEC, in accordance with the instructions, terms and conditions set forth in Exhibit D, the Access Agreement becomes effective to convey the interest identified in the Access Agreement (if any). Any dispute regarding whether a legal agreement conveys a ROW shall be resolved between CLEC and the relevant third party or parties, and such disputes shall not involve Qwest; and/or (c) In the case of poles, estimates of Make-Ready costs and the annual recurring prices associated with the attachment of facilities shall be provided on Attachment 2 of Exhibit D and shall be completed not later than forty-five (45) Days after CLEC's submission of the inquiry request. Make-ready time, if any, and CLEC review time, is not part of the forty-five (45) Day interval. The Attachment 2 quotation shall be valid for ninety (90) Days.

10.8.4.2.1 CLEC-Performed Field Verification. At the option of CLEC, it may perform its own field verification (in lieu of Qwest performing same) with the following stipulations: 1) Verifications will be conducted by a Qwest approved contractor; 2) A Qwest contractor will monitor the activity of CLEC contractor and a current labor rate will be charged to CLEC; 3) CLEC will provide Qwest with a legible copy of manhole butterfly drawings that reflect necessary Make-Ready effort; and 4) Qwest will use CLEC-provided butterfly drawings and documentation to check against existing jobs and provide a final field report of available duct/innerduct. CLEC will be charged standard rates for Tactical Planner time.

10.8.4.3 Order – Poles and Duct/Innerduct. The review, signing and return of Attachment 2 of the General Information Document along with payment of the Make-Ready and prorated recurring access charges for the current relevant period (annual or semi-annual) shall be accepted as an Order for the attachment or occupancy. Upon receipt of the accepted Order from CLEC and applicable payment for the fees identified, Qwest will assign the requested space and commence any Make-Ready work which may be required. Qwest will notify CLEC when poles/duct/innerduct are ready.

10.8.4.4 Make-Ready - Estimates of Make-Ready are used to cover actual Make-Ready costs.

10.8.4.4.1 If Qwest requests, CLEC will be responsible for payment of the actual Make-Ready costs determined if such costs exceed the estimate. Such payment shall be made within thirty (30) Days of receipt of an invoice for the costs that exceed the estimate.

10.8.4.4.2 Within fifteen (15) business days of a request, Qwest will provide CLEC copies of records reflecting actual cost of Make-Ready work; provided, however, that, if Qwest does not possess all such records at the time of the request, then Qwest will provide copies of such records within fifteen (15) business days of receipt of such records. CLEC must request such records, if at all, within sixty (60) Days after written notification of the completion of the Make-

Ready work.

10.8.4.4.3 If the actual Make-Ready costs are less than the estimate, an appropriate credit for the difference will be issued upon request. Such request must be received within sixty (60) Days following CLEC's receipt of copies of records if CLEC has requested records under this paragraph, or within sixty (60) Days after written notification of the completion of Make-Ready work if CLEC has not requested records under this paragraph. Such credit will issue within ten (10) business days of Qwest's receipt of either all records related to such actual costs or CLEC's request for credit, whichever comes last, but in no event later than ninety (90) Days following the request for credit.

10.8.4.4.4 If CLEC cancels or if, due to circumstances unforeseen during inquiry/verification, Qwest denies the request for poles, ducts or ROW, upon CLEC request, Qwest will also refund the difference between the actual Make-Ready costs incurred and those prepaid by CLEC, if any. Such request must be made within thirty (30) Days of CLEC's receipt of written denial or notification of cancellation. Any such refund shall be made within ten (10) business days of either receipt of CLEC's request or Qwest's receipt of all records relating to the actual costs, whichever comes last, but in no event later than ninety (90) Days following the denial.

10.8.5 Billing

CLEC agrees to pay the following fees in advance as specified in Exhibit A: Inquiry Fee, Field Verification Fee, Access Agreement Preparation Fee, Make-Ready Fee, Pole Attachment Fee, Duct/Innerduct Occupancy Fee and Access Agreement Consideration. Make-Ready Fees will be computed in compliance with applicable local, State and federal guidelines. Usage fees for poles/duct/innerduct (i.e., Pole Attachment Fee and Duct/Innerduct Occupancy Fee) will be assessed on an annual basis (unless CLEC requests a semi-annual basis). Annual usage fees for poles/duct/innerduct will be assessed as of January 1 of each year. Semi-annual usage fees for poles/duct/innerduct will be assessed as of January 1 and July 1 of each year. All fees shall be paid within thirty (30) Days following receipt of invoices. All fees are not refundable except as expressly provided herein.

10.8.6 Maintenance and Repair

In the event of any service outage affecting both Qwest and CLEC, repairs shall be effectuated on a non-discriminatory basis as established by local, State or federal requirements. Where such requirements do not exist, repairs shall be made in the following order: electrical, telephone (EAS/local), telephone (long distance), and cable television, or as mutually agreed to by the users of the affected poles/duct/innerduct.

NOTES					
* Unless otherwise indicated, all rates are pursuant to the Qwest and AT&T interconnection Agreement approved by the Idaho Public Utilities Commission in Docket Number USW-T-06-15, Commission Order Number 27736, effective September 17, 1996.					
B: Cost Docket QWE-T-01-11 Phase 1 Order No. 29406 (January 5, 2004) effective January 5, 2004.					
# Denotes voluntary rate reduction.					
## Additional reduction to the voluntary reductions reflected in the August 5, 2002 exhibit.					
1) Rates proposed in Cost Docket testimony filed on 6/29/01 & 11/16/2001. (TELRIC)					
2) Market-based rates.					
3) ICB, Individual Case Basis pricing.					
4) The State of Idaho has retained the oversight on these rates. These rates are not under the jurisdiction of the FCC.					
5) Rates not addressed in Cost Docket (TELRIC)					
6) Regional TELRIC based where required.					
7) A special request is a request by the customer to perform something that is technically feasible but the process and pricing are not yet in place.					
8) Rates found in FCC Tariff #1					

**Exhibit A - Idaho
ATT**

<p>9) The preliminary engineering and planning costs are included in the caged and cageless space construction charges. These engineering and planning charges are also included in the caged and cageless quote preparation fees. Upon completion of the collocation construction, the quote preparation fee (QPF) will be credited to the final space construction charge for the collocation job. The credit will apply to whichever QPF is applied. This exhibit currently lists multiple QPFs based on what has been proposed on the cost docket and what was approved in the AT&T interconnection agreement. CLEC may choose either QPF at this time.</p>				
<p>10) Qwest will not charge for this element until the Commission has an opportunity to review and approve a rate in a cost proceeding.</p>				
<p>11) All technically feasible Vertical Switch Features are available with compatible unbundled switch ports. No monthly recurring charge applies for Basic Vertical Switch Features. Only basic Vertical Switch Features with nonrecurring charges are listed. Nonrecurring charges are applicable whenever a feature is added - whether on new installation, conversion, or change order activity. Vertical Switch Features not listed are included in the cost of the switch port and have a rate of zero for both recurring and nonrecurring charges.</p>				
<p>12 - 18 Intentionally Left Blank</p>				
<p>18) Agreed to rate, Qwest is voluntarily reducing in order to keep rate relationship with the Fiber Transport "per Pair" rate element.</p>

- (c) **U S WEST shall be entitled to retain all revenue associated with any sales pursuant to subparagraphs (a) and (b) above.²⁵**

44.3 *U S WEST will take reasonable steps in accordance with industry practices to accommodate non-published and non-listed Listings provided that AT&T has supplied U S WEST the necessary privacy indicators on such Listings.*

44.4 AT&T Responsibilities

44.4.1 *AT&T agrees to provide to U S WEST its end user names, addresses and telephone numbers in a standard mechanized format, as utilized by U S WEST.*

44.4.2 *AT&T will supply its ACNA/CIC or CLCC/OCN, as appropriate, with each order to provide U S WEST the means of identifying listings ownership.*

44.4.3 *AT&T represents the end user information provided to U S WEST is accurate and correct. AT&T further represents that it has reviewed all listings provided to U S WEST, including end user requested restrictions on use such as non-published and non-listed.*

44.4.4 *AT&T is responsible for dealings with, and on behalf of, AT&T's end users on the following subjects:*

- a) *All end user account activity, e.g., end user queries and complaints.*
- b) *All account maintenance activity, e.g., additions, changes, issuance of orders for Listings to U S WEST.*
- c) *Determining privacy requirements and accurately coding the privacy indicators for AT&T's end user information. If end user information provided by AT&T to U S WEST does not contain a privacy indicator, no privacy restrictions will apply.*

45. *[Intentionally left blank for numbering consistency.]*

46. U S WEST Dex Issues

46.1 *U S WEST and AT&T agree that certain issues, such as yellow page advertising, directory distribution, access to call guide pages, and yellow page listings, may be the subject of negotiations between AT&T and U S WEST Dex. U S WEST acknowledges that AT&T may request U S WEST to facilitate discussions between AT&T and U S WEST Dex.*

47. Access to Poles, Ducts, Conduits, and Rights of Way

²⁵ Third Order, at p. 4.
USWC/AT&T Interconnection Agreement - Idaho

47.1 **U S WEST shall provide AT&T nondiscriminatory access to poles, ducts, rights-of-way and conduits it owns or controls on terms, conditions and prices comparable to those offered to any other entity.²⁶**

47.2 [Intentionally left blank for numbering consistency]

47.3 Definitions

"Poles, ducts, conduits and ROW" refer to all the physical facilities and legal rights which provide for access to pathways across public and private property. These include poles, pole attachments, ducts, innerducts, conduits, building entrance facilities, building entrance links, equipment rooms, remote terminals, cable vaults, telephone closets, building risers, rights-of-way, or any other requirements needed to create pathways. These pathways may run over, under, across or through streets, traverse private property, or enter multi-unit buildings. A Right-of-Way ("ROW") is the right to use the land or other property owned, leased, or controlled by any means by U S WEST to place poles, ducts, conduits and ROW or to provide passage to access such poles, ducts, conduits and ROW. A ROW may run under, on, or above public or private property (including air space above public or private property) and shall include the right to use discrete space in buildings, building complexes, or other locations.

47.4 Requirements

47.4.1 *U S WEST shall make poles, duct, conduits and ROW available to AT&T upon receipt of a request for use within the time periods provided in this Section, providing all information necessary to implement such use and containing rates, terms and conditions, including, but not limited to, maintenance and use in accordance with this Agreement and at least equal to those which it affords itself, its Affiliates and others. U S WEST may reserve the space in its poles, ducts, conduit and rights-of-way in order to meet its residential service obligations under Idaho law.²⁷ Other users of these facilities, including U S WEST, shall not interfere with the availability or use of the facilities by AT&T.*

47.4.2 *Within ten (10) Business Days of AT&T's request for specific poles, ducts, conduits, or ROW, U S WEST shall provide any information in its possession or available to it regarding the environmental conditions of such requested poles, ducts, conduits or ROW route or location including, but not limited to, the existence and condition of asbestos, lead paint, hazardous substance contamination, or radon. Information is considered "available" under this Agreement if it is in U S WEST's possession or files, or the possession of an agent, contractor, employee, lessor, or tenant of U S WEST's that holds such information on U S WEST's behalf. If the poles, ducts, conduits or ROW contain such environmental contamination, making the placement of equipment hazardous, U S WEST shall offer alternative poles, ducts, conduits or ROW for AT&T's consideration. U S WEST shall allow AT&T to perform any environmental site investigations, including, but not limited to, Phase I and Phase II environmental site assessments, as AT&T may deem to be necessary.*

²⁶ Per Third Order, at 5.

²⁷ Per First Order at 41

- 47.4.3 U S WEST shall not prevent or delay any third party assignment of ROW to AT&T.
- 47.4.4 U S WEST shall offer the use of such poles, ducts, conduits and ROW it has obtained from a third party to AT&T, to the extent such agreement does not prohibit U S WEST from granting such rights to AT&T. U S WEST shall not be required to act as the agent of AT&T in AT&T's efforts to secure license form third parties for the access of third parties' poles, ducts, conduit and rights of way, However, U S WEST shall provide to AT&T the necessary information as to the ownership of such space and where necessary and appropriate, provide assurance to the third party that U S WEST does not object to the granting of any required rights. The Parties shall jointly develop a document introducing AT&T to third party property owners.²⁸ They shall be offered to AT&T on the same terms as are offered to U S WEST. AT&T shall reimburse U S WEST for U S WEST's reasonable costs, if any, incurred as a result of the exercise of its eminent domain authority on behalf of AT&T in accordance with the provisions of this paragraph.
- 47.4.5 U S WEST shall provide AT&T equal and non-discriminatory access to poles, ducts, conduit and ROW and any other pathways on terms and conditions equal to that provided by U S WEST to itself or to any other Person. Further, U S WEST shall not preclude or delay allocation of these facilities to AT&T because of the potential needs of itself or of other Person, except a maintenance spare may be retained as described below, and except for reservations in existence made prior to the request of AT&T in accordance with the Act.
- 47.4.6 U S WEST shall not attach, or permit other entities to attach facilities on, within or overlashed to existing AT&T facilities without AT&T's prior written consent.
- 47.4.7 On a timely basis, U S WEST agrees to provide immediately necessary information, on a case-specific route basis, current detailed engineering and other plant records and drawings for specific requests for poles, ducts, conduit and ROW, including facility route maps at a city level, and the fees and expenses incurred in providing such records and drawings on the earlier of twenty (20) Business Days from AT&T request or the time within which U S WEST provides this information to itself or any other Person. If U S WEST is unable to provide this information within the twenty (20) day period, it shall immediately advise AT&T of the expected delay, the reason for such delay, and the expected date on which AT&T will receive the information requested. AT&T may request an earlier response time. Such information shall be of equal type and quality as that which is available to U S WEST's own engineering and operations staff. U S WEST shall also allow personnel designated by AT&T to jointly examine with U S WEST personnel, at no cost to AT&T for such personnel, such engineering records and drawings for a specific routing at U S WEST Central Offices and U S WEST Engineering Offices upon ten (10) days' written notice to U S WEST. U S WEST acknowledges that the request for information and the subject matter related to the request made under this Section shall be treated as Proprietary Information

²⁸ Per First Order at 42
USWC/AT&T Interconnection Agreement - Idaho

47.4.8 U S WEST shall provide to AT&T a Single Point of Contact for negotiating all structure lease and ROW arrangements.

47.4.9 U S WEST shall provide information regarding the availability and condition of poles, ducts, conduit and ROW within five (5) Business Days of AT&T's request if the information then exists in U S WEST's records (a records based answer) and within twenty (20) Business Days of AT&T's request if U S WEST must physically examine the poles, ducts, conduits and ROW (a field based answer) ("Request"). AT&T shall have the option to be present at the field based survey and U S WEST shall provide AT&T at least twenty-four (24) hours' notice prior to the start of such field survey. During and after this period, U S WEST shall allow AT&T personnel to enter manholes and equipment spaces and view pole structures to inspect such structures in order to confirm usability or assess the condition of the structure. U S WEST shall send AT&T a written notice confirming availability pursuant to the Request within such twenty (20) day period ("Confirmation").

47.4.10.²⁹

For the period beginning at the time of the Request and ending sixty (60) days following Confirmation, U S WEST shall reserve such poles, ducts, conduits and ROW for AT&T and shall not allow any use thereof by any Party, including U S WEST. AT&T shall elect whether or not to accept such poles, ducts, conduits and ROW within the sixty(60) day period following Confirmation. AT&T may accept such facilities by sending written notice to U S WEST ("Acceptance"). From the time of the Request pursuant to Section 47.4.9 above until sixty (60) days after Confirmation, U S WEST shall reserve any such requested poles, ducts, conduits and/or ROW for AT&T's use, provided, however, that if another party makes a bona fide request in writing to use any such requested poles, ducts, conduits and/or ROW, including U S WEST, U S WEST shall so inform AT&T. U S WEST shall not allow the requesting party, including itself, to use the requested poles, ducts, conduits and/or ROW without first giving AT&T the right to continue its reservation of such poles, ducts, conduits and/or ROW by paying U S WEST a reservation fee in an amount to be mutually agreed for the right to continue its reservation.

47.4.10.1 Right of First Refusal. During the Reservation Period, if another party, including U S WEST, makes a bona fide request for the actual use which would commence during the reservation period of any poles, ducts, conduits or ROW that AT&T has previously reserved, AT&T shall have a "right of first refusal" over these facilities. If AT&T chooses to exercise this right, AT&T must do so within five (5) calendar days prior to the expiration of the Reservation Period, whichever occurs first.

47.4.11 Reservation. After Acceptance by AT&T, AT&T shall have six (6) months to begin attachment and/or installation of its facilities to the poles, ducts, conduit and ROW or request U S WEST to begin make ready or other construction activities. Any

²⁹ Per First Order at 40.

such construction, installation or make ready by AT&T shall be completed by the end of one (1) year after Acceptance. AT&T shall not be in default of the 6-month or 1-year requirement above if such default is caused in any way by any action, inaction or delay on the part of U S WEST or its Affiliates or subsidiaries.

47.4.12 Make Ready. *U S WEST shall rearrange, modify and/or make ready existing poles, ducts, conduit and ROW where necessary and feasible to provide space for AT&T's requirements. However, U S WEST shall not be required to undertake any modification if AT&T requests a modification that U S WEST would not undertake for itself to increase capacity. In addition, U S WEST may offer AT&T an economically competitive alternative to modification to meet AT&T's request in lieu of actual modification.³⁰ Subject to the requirements above, the Parties shall endeavor to mutually agree upon the time frame for the completion of such work within five (5) days following AT&T's request; provided, however, that any such work required to be performed by U S WEST shall be completed within sixty (60) days or a reasonable period of time based on standard construction intervals in the industry, unless otherwise agreed by AT&T in writing.*

47.4.13 New Construction. *After Acceptance, U S WEST shall complete any new construction, relocation or installation of poles, ducts, conduits or ROW required to be performed by U S WEST or any U S WEST construction, relocation or installation requested by AT&T within a reasonable period of time based on standard construction intervals in the industry or sixty (60) days after obtaining all governmental authority or permits necessary to complete such construction, relocation or installation. If U S WEST anticipates that construction, relocation or installation will go beyond standard industry intervals or the sixty (60) day period, U S WEST shall immediately notify AT&T and the Parties shall mutually agree on a completion date.*

47.4.14 *AT&T shall begin payment for the use of newly constructed poles, ducts, conduit, and ROW upon completion of such construction and installation and confirmation by appropriate testing methods that the facilities are in a condition ready to operate in AT&T's network or upon use (other than for testing) by AT&T, whichever is earlier.*

47.4.15 *AT&T shall make payment for construction, relocation, rearrangements, modifications and make ready in accordance with Section 3.5 of Attachment 1 of this Agreement.*

47.4.16 *[Intentionally left blank for numbering consistency]*

47.4.17 *AT&T may, at its option, install its facilities on poles, ducts, conduit and ROW and use AT&T or AT&T designated personnel to attach its equipment to such U S WEST poles, ducts, conduits and ROW.*

47.4.18 *If available, U S WEST shall provide AT&T space in manholes for racking and storage of cable and other materials as requested by AT&T.*

³⁰ Per First Order at 41.
USWC/AT&T Interconnection Agreement - Idaho

- 47.4.19 U S WEST shall rearrange, modify and/or make ready any conduit system or poles with retired cable by removing such retired cable from conduit systems or poles to allow for the efficient use of conduit space and pole space. Before denying access based on a lack of capacity, U S WEST must explore potential accommodations with AT&T.
- 47.4.20 Where U S WEST has innerducts which are not, at that time, being used or are not reserved as emergency or maintenance spare in accordance with FCC rules and regulations, U S WEST shall offer such ducts for AT&T's use.
- 47.4.21 Where a spare innerduct does not exist, U S WEST shall allow AT&T to install an innerduct in U S WEST conduit, at AT&T's cost and expense. U S WEST must review and approve any installation of innerduct in any U S WEST's duct prior to the start of construction. Such approval shall not be unreasonably delayed, withheld or conditioned. AT&T shall provide notice to U S WEST of any work activity not less than twenty-four (24) hours prior to the start of construction.
- 47.4.22 Where U S WEST has any ownership or other rights to ROW to buildings or building complexes, or within buildings or building complexes, U S WEST shall offer such ROW to AT&T.
- (a) Subject to the approval of the building owner, if required, the right to use any available space owned or controlled by U S WEST in the building or building complex to install AT&T equipment and facilities;
 - (b) Subject to the approval of the building owner, if required, ingress and egress to such space; and
 - (c) Subject to the approval of the building owner, if required, the right to use electrical power at parity with U S WEST's rights to such power.
- 47.4.23 Whenever U S WEST intends to modify or alter any poles, ducts, conduits or ROW which contain AT&T's facilities, U S WEST shall provide written notification of such action to AT&T so that AT&T may have a reasonable opportunity to add to or modify its facilities. AT&T shall advise U S WEST, in writing, of its intentions to add or modify the facilities within fifteen (15) Business Days of U S WEST's notification. If AT&T adds to or modifies its facilities according to this paragraph, AT&T shall bear a proportionate share of the costs incurred by U S WEST in making such facilities accessible.
- 47.4.24 AT&T shall not be required to bear any of the costs of rearranging or replacing its facilities, if such rearrangement or replacement is required as a result of an additional attachment or the modification of an existing attachment sought by any entity other than AT&T, including U S WEST.
- 47.4.25 U S WEST shall maintain the poles, ducts, conduits and ROW at its sole cost. AT&T shall maintain its own facilities installed within the poles, ducts, conduits and ROW at its sole cost. In the event of an emergency, U S WEST shall begin repair of its facilities containing AT&T's facilities within a reasonable time frame based on industry standards or a time frame requested by AT&T. If U S WEST cannot begin

repair within the requested time frame, upon notice and approval of U S WEST, which approval shall not be unreasonably withheld, AT&T may begin such repairs without the presence of U S WEST personnel. AT&T may climb poles and enter the manholes, handholds, conduits and equipment spaces containing U S WEST's facilities in order to perform such emergency maintenance, but only until such time as qualified personnel of U S WEST arrives ready to continue such repairs. For both emergency and non-emergency repairs, AT&T may use spare innerduct or conduits, including the innerduct or conduit designated by U S WEST as emergency spare for maintenance purposes; provided, however, that AT&T may only use such spare conduit or innerduct for a maximum period of ninety (90) days.

47.4.26 In the event of a relocation necessitated by a governmental entity exercising the power of eminent domain, when such relocation is not reimbursable, all parties shall share pro rata in costs for relocating the base conduit or poles and shall each pay its own cost of cable and installation of the facilities in the newly rebuilt U S WEST poles, ducts, conduits and ROW.

48. Bona Fide Request Process for Further Unbundling

- 48.1 Any request for Interconnection or access to an unbundled Network Element not already available via price lists, tariff, or as described herein shall be treated as a Request under this Section.
- 48.2 U S WEST shall use the Bona Fide Request Process ("BFR") process as described in this Section 48, to determine the technical feasibility of the requested interconnection or Network Element(s) and, for those items found to be technically feasible, to provide the terms and timetable for providing the requested items. Additionally, elements, services and functions which are materially or substantially different from those services, elements or functions already provided by U S WEST to itself, its Affiliates, Customers, or end users may, at the discretion of AT&T, be subject to this BFR process.
- 48.3 A Request shall be submitted in writing and, at a minimum, shall include: (a) a complete and accurate technical description of each requested Network Element or Interconnection; (b) the desired interface specifications; (c) a statement that the Interconnection or Network Element will be used to provide a Telecommunications Service; (d) the quantity requested; (e) the location(s) requested; and (f) whether AT&T wants the requested item(s) and terms made generally available. AT&T may designate a Request as Confidential.
- 48.4 Within forty-eight (48) hours of receipt of a Request, U S WEST shall acknowledge receipt of the Request and review such Request for initial compliance with Subsection 48.3 above. In its acknowledgment, U S WEST shall advise AT&T of any missing information reasonably necessary to move the Request to the preliminary analysis described in Subsection 48.5 below.
- 48.5 Unless otherwise agreed to by the Parties, within thirty (30) calendar days of its receipt of the Request and all information necessary to process it, U S WEST shall provide to AT&T a preliminary analysis of the Request. As reasonably requested by AT&T, U S WEST agrees to provide status updates to AT&T. U S WEST will notify AT&T if the quote preparation fee, if any, will exceed \$5,000. AT&T will approve the continuation of the development of the

Voluntary Rate Reduction, Docket USW-T-00-3, effective 6/10/02. Reductions reflected in the 5/24/02 Exhibit A.

Second Voluntary Rate Reduction, Docket USW-T-00-3, effective 6/7/02. Reductions reflected in the 7/10/02 Exhibit A.

Third Voluntary Rate Reduction, Docket USW-T-00-3, effective 12/16/02, Reductions reflected in the 10/16/02 Exhibit A.

- [1] TELRIC rates proposed in Cost Docket testimony filed on November 12, 2003
- [2] Market-based rates.
- [3] ICB, Individual Case Basis pricing.
- [4] The State of Idaho has retained the oversight on these rates. These rates are not under the jurisdiction of the FCC.
- [5] FCC ordered rates pursuant to the FCC's Order on Remand and Report and Order (Inter-carrier Compensation for ISP-Bound Traffic) CC Docket 01-131 (FCC ISP Order), effective June 14, 2001.
- [6] Effective August 1, 2003, Qwest will no longer bill the recurring and nonrecurring charges for Channel Regeneration. Qwest reserves the right to revert back to the contractual rate only after appropriate notice is given.
- [7] The preliminary Quote Preparation Fees (QPF) are included in the space construction charges. Upon completion of the collocation construction, the QPF will be credited to the final space construction charge for the virtual, caged or cageless collocation job. These engineering and planning charges are also included in the Virtual, Caged and Cageless Quote Preparation Fees.
- [8] The Cable Unloading / Bridge Tap Removal charge does not apply until further notice.
- [9] Qwest is voluntarily reducing this rate in order to keep rate relationship with the Fiber Transport "per Pair" rate element.
- [10] Qwest has not implemented this UNE rate or charge in its billing system but reserves the right to assess such a charge in the future.
- [11] All technically feasible Vertical Switch Features are available with compatible unbundled switch ports. No monthly recurring charge applies for Basic Vertical Switch Features. Only basic Vertical Switch Features with nonrecurring charges are listed. Nonrecurring charges are applicable whenever a feature is added - whether on new installation, conversion, or change order activity. Vertical Switch Features not listed are included in the cost of the switch port and have a rate of zero for both recurring and nonrecurring charges.
- [12] The Premium Port monthly recurring charge applies in addition to the Analog or Digital Line Side Port recurring charges when Premium Features are ordered with analog or digital ports.

In the Matter of the Complaint of the
Minnesota Department of Commerce Against
Qwest Corporation Regarding Unfiled
Agreements

ISSUE DATE: March 12, 2002

DOCKET NO. P-421/C-02-197

NOTICE AND ORDER FOR HEARING

PROCEDURAL HISTORY

On February 14, 2002, the Minnesota Department of Commerce (DOC) filed a Complaint against Qwest claiming Qwest had violated state and federal law by not submitting for Commission approval numerous agreements with Competitive Local Exchange Carriers (CLECs). Among other things, the Complaint requested an expedited hearing and temporary relief, pursuant to Minn. Stat. § 237.462.

On March 1, 2002 Qwest filed its Answer to the Complaint of the DOC. As part of its answer, Qwest joined the DOC in its request for an expedited proceeding in this case.

On March 1, 2002, Qwest filed its Opposition to Temporary Relief.

On March 1, 2002, Qwest also filed its Conditional Application for Approval of certain negotiated agreement provisions between Qwest and Eschelon Telecom, Inc., Covad Communications Company, Small CLECs, McLeod USA, US Link, InfoTel and Advanced Telecommunications, Inc.

Pursuant to Minn. Stat. § 237.462, Subd. 7, when there is a request for temporary relief, the Commission has 20 days from the filing of the complaint to issue a decision on such a request. March 6, 2002, is the twentieth day from the date of filing.

Further, pursuant to Minn. Stat. § 237.462, Subd. 6 (f), when there has been a request for an expedited hearing, the Commission has 15 days from the receiving an answer to determine whether an expedited hearing is warranted. March 16, 2002 is the fifteenth day from the filing of Qwest's answer.

These matters came before the Commission on March 5, 2002.

FINDINGS AND CONCLUSIONS

I. Background

A. Summary of the Complaint

The complaint alleges, among other things, that Qwest has entered into numerous¹ secret agreements with Competitive Local Exchange Carriers (CLECs) to provide interconnection, access to network elements, resale, number portability, dialing parity, access to rights-of-way, reciprocal compensation and collocation to the CLEC. Further, the complaint alleges that Qwest has not submitted these agreements for Commission approval, as required by statute.² As a result, the terms of these agreements are unknown to CLECs not a party to these agreements and are not available for adoption by other CLECs, as required.³

The complaint requests expedited proceedings, temporary relief and penalties.

II. Jurisdiction

The Commission has jurisdiction over this complaint pursuant to 47 U.S.C. § § 252(e) and 251 (c)(2), (authority of state commissions to enforce interconnection agreements, and duty of incumbent carriers to interconnect with CLECs, respectively) and Minn. Stat. § § 237.081(Commission investigations) and 237.462 (competitive enforcement).

III. The Request for Temporary Relief and Expedited Hearings

The DOC requested that the Commission order Qwest to immediately make any and all of the specified terms or conditions of interconnection or service public, and also make the specified terms and conditions immediately available to any other CLEC that wishes to adopt these provisions.

Both the DOC and Qwest requested expedited proceedings.

¹ Approximately thirty-three provisions in eleven agreements.

² 47 U.S.C. § 252(e).

³ 47 U.S.C. § 252(i).

IV. Parties Positions on the Issue of Temporary Relief

A. DOC

In its Complaint the DOC argued that temporary relief was necessary to protect the public's interest in fair and reasonable competition. It argued that Qwest was offering terms and conditions of interconnection in a discriminatory manner. If Qwest were not required to make the specified terms or conditions of interconnection immediately available to all CLECs, Qwest would be continuing to limit competition and to provide access to its network and its services in a discriminatory manner.

At the hearing before the Commission, the DOC did indicate that a Commission decision to resolve the Complaint under expedited time lines would significantly mitigate the need for temporary relief.

B. Qwest

Qwest argued that the relief the DOC is requesting is not temporary relief but is, in fact, immediate, complete and permanent relief. Qwest further argued that it has submitted the terms of the agreements to the Commission without a request for confidential treatment and in doing so has made the terms public.

Qwest also argued that the DOC has not met the statutory requirements⁴ for such relief. The DOC has made assertions but has not adequately shown that there has been any effect on competition from the non-filing of the agreements. Further, Qwest argued, the DOC is unlikely to succeed on the merits because the terms at issue were not properly the subject of interconnection agreements.

V. Commission Action

The Commission recognizes that there are contested issues of material fact arising from this complaint that the Commission cannot satisfactorily resolve on the basis of the parties' filings. For this reason the Commission will refer this matter to the Office of Administrative Hearings (OAH) for contested case proceedings. The Commission will request that the OAH hear this matter on an expedited time schedule following the guidelines for expedited hearings set forth in Minn. Stat. § 237.462, Subd. 6. Hearing this matter on an expedited schedule will address the concerns of both parties that this issue be quickly resolved.

⁴ See Minn. Stat. 237.462, Subd. 7(c) requiring: (1) the party seeking relief will likely succeed on the merits, (2) the order is necessary to protect the public's interest in fair and reasonable competition, and (3) the relief sought is technically feasible.

Further, the Commission recognizes that to make a determination on whether temporary relief should be granted, the merits of the case would necessarily need to be addressed. Since the merits of the case will be addressed on an expedited basis, and the complainant has indicated its agreement, the Commission will not award temporary relief at this time.

VI. Issues to be Addressed

The scope of the issues to be addressed in the contested case hearing are as follows:

- whether the agreements or any portion thereof needed to be filed with the Commission for review;⁵
- if the agreements needed to be filed whether they were filed under other settings;
- whether there were any exculpatory reasons why they were or were not filed;
- recommendations as to whether disciplinary action/penalties are appropriate.

VII. Procedural Outline

A. Administrative Law Judge

The Administrative Law Judge assigned to this case is Allan W. Klein. His address and telephone number are as follows: Office of Administrative Hearings, Suite 1700, 100 Washington Square, Minneapolis, Minnesota 55401-2138; (612) 341-7609.

B. Hearing Procedure

Controlling Statutes and Rules

Hearings in this matter will be conducted in accordance with the Administrative Procedure Act, Minn. Stat. §§ 14.57-14.62; the rules of the Office of Administrative Hearings, Minn. Rules, parts 1400.5100 to 1400.8400; and, to the extent that they are not superseded by those rules, the Commission's Rules of Practice and Procedure, Minn. Rules, parts 7829.0100 to 7829.3200.

Copies of these rules and statutes may be purchased from the Print Communications Division of the Department of Administration, 117 University Avenue, St. Paul, Minnesota 55155; (651) 297-3000. These rules and statutes also appear on the State of Minnesota's website at www.revisor.leg.state.mn.us.

⁵ The Commission clarified that this included terminated agreements.

The Office of Administrative Hearings conducts contested case proceedings in accordance with the Minnesota Rules of Professional Conduct and the Professionalism Aspirations adopted by the Minnesota State Bar Association.

Right to Counsel and to Present Evidence

In these proceedings, parties may be represented by counsel, may appear on their own behalf, or may be represented by another person of their choice, unless otherwise prohibited as the unauthorized practice of law. They have the right to present evidence, conduct cross-examination, and make written and oral argument. Under Minn. Rules, part 1400.7000, they may obtain subpoenas to compel the attendance of witnesses and the production of documents.

Parties should bring to the hearing all documents, records, and witnesses necessary to support their positions.

Discovery and Informal Disposition

Any questions regarding discovery under Minn. Rules, parts 1400.6700 to 1400.6800 or informal disposition under Minn. Rules, part 1400.5900 should be directed to Kevin O'Grady, Public Utilities Rates Analyst, Minnesota Public Utilities Commission, 121 Seventh Place East, Suite 350, St. Paul, Minnesota 55101-2147, (651)282-2151; or Karen Hammel, Assistant Attorney General, 1100 NCL Tower, 445 Minnesota Street, St. Paul, Minnesota 55101, (651) 297-1852.

Protecting Not-Public Data

State agencies are required by law to keep some data not public. Parties must advise the Administrative Law Judge if not-public data is offered into the record. They should take note that any not-public data admitted into evidence may become public unless a party objects and requests relief under Minn. Stat. § 14.60, subd. 2.

Accommodations for Disabilities; Interpreter Services

At the request of any individual, this agency will make accommodations to ensure that the hearing in this case is accessible. The agency will appoint a qualified interpreter if necessary. Persons must promptly notify the Administrative Law Judge if an interpreter is needed.

Scheduling Issues

The times, dates, and places of public and evidentiary hearings in this matter will be set by order of the Administrative Law Judge after consultation with the Commission and intervening parties.

Notice of Appearance

Any party intending to appear at the hearing must file a notice of appearance (Attachment A) with the Administrative Law Judge within 20 days of the date of this Notice and Order for Hearing.

Sanctions for Non-compliance

Failure to appear at a prehearing conference, a settlement conference, or the hearing, or failure to comply with any order of the Administrative Law Judge, may result in facts or issues being resolved against the party who fails to appear or comply.

C. Parties and Intervention

The current parties to this case are Qwest and the Minnesota Department of Commerce. Other persons wishing to become formal parties shall promptly file petitions to intervene with the Administrative Law Judge. They shall serve copies of such petitions on all current parties and on the Commission. Minn. Rules, part 1400.6200.

D. Prehearing Conference

A prehearing conference will be held in this case on Wednesday, March 20, 2002, at 9:30 a.m. in Conference Room B of the Public Utilities Commission, 121 Seventh Place East, Suite 350, St. Paul, Minnesota 55101. Persons participating in the prehearing conference should be prepared to discuss time frames, scheduling, discovery procedures, and similar issues. Potential parties are invited to attend the pre-hearing conference and to file their petitions to intervene as soon as possible.

E. Time Constraints

The Commission requests that this matter be heard on an expedited time schedule following the guidelines in Minn. Stat. 237.462, Subd. 6 for expedited hearings.

VIII. Application of Ethics in Government Act

The lobbying provisions of the Ethics in Government Act, Minn. Stat. §§ 10A.01 et seq., may apply to this case. Persons appearing in this proceeding may be subject to registration, reporting, and other requirements set forth in that Act. All persons appearing in this case are urged to refer to the Act and to contact the Campaign Finance and Public Disclosure Board, telephone number (651) 296-5148, with any questions.

IX. Ex Parte Communications

Restrictions on ex parte communications with Commissioners and reporting requirements regarding such communications with Commission staff apply to this proceeding from the date of this Order. Those restrictions and reporting requirements are set forth at Minn. Rules, parts 7845.7300-7845.7400, which all parties are urged to consult.

ORDER

1. The Commission hereby refers this case to the Office of Administrative Hearings for contested case proceedings as set forth above.
2. A prehearing conference shall be held on Wednesday March 20, 2002, at 9:30 a.m. in Conference Room B, Public Utilities Commission, 121 Seventh Place East, Suite 350, St. Paul, Minnesota 55101.
4. This Order shall become effective immediately.

BY ORDER OF THE COMMISSION

Burl W. Haar
Executive Secretary
