IN THE MATTER OF QWEST CORPORATION'S PETITION FOR APPROVAL OF NON-IMPAIRED WIRE CENTER LISTS PURSUANT TO THE TRIENNIAL REVIEW REMAND ORDER	Case No. QWE-T-08-07
--	----------------------

QWEST CORPORATION'S FILING FOR COMMISSION APPROVAL OF NON-IMPAIRED WIRE CENTER DESIGNATIONS WITH SUPPORTING DATA

INTRODUCTION

On Friday, June 20, 2008, Qwest Corporation ("Qwest") petitioned the Commission to open a docket for approval of to its non-impaired wire center list in Idaho. Through this filing, Qwest asks that the Commission designate the wire centers identified herein as non-impaired. As Qwest explained in its June 20th petition, Qwest is now submitting its data in support of its

petition and asks that the Commission designate the wire centers identified herein as non-impaired.

DISCUSSION

I. Support For the Non-Impairment Designation of Wire Centers

In support of Qwest's request are the affidavits and attachments of Ms. Rachel Torrence and Mr. Robert Brigham filed concurrently herewith. Ms. Torrence's affidavit and attachments describe and present evidence in support of the inventory of fiber-based collocators in Qwest's Idaho wire centers that were used to ascertain the appropriate "tier" designation and subsequent non-impairment designation. Mr. Brigham's affidavit and attachments provide the December 2007 *TRRO* business line counts, the UNE-L and EEL data by type of circuit (voice grade, DS1, DS3), and the UNE-L and EEL data by type of circuit (voice grade, DS1, DS3), and by Competitive Local Exchange Carrier (CLEC). The data are provided for each non-impaired wire center that is classified as non-impaired based on the number of business lines.

II. Highly-Confidential Trade Secret Data

Qwest's request requires the provision of data that include highly-confidential trade secret and CLEC-specific data. In order to protect these data from inappropriate disclosure, Qwest has filed a proposed Protective Agreement as Exhibit B to its June 20, 2008 petition. This Protective agreement will provide for the appropriate handling of these confidential data. Qwest is filing these Highly Confidential attachments under seal with the understanding that they will be reviewed only by the Commissioners. All documents will be disclosed to the Commission Staff once its attorney has signed the proposed Protective Agreement and the individual Staff members have executed the associated exhibits thereto. Intervening CLECs who sign the Protective Agreement and associated exhibits will be provided the redacted versions of the

Highly Confidential documents together with the CLEC-specific information pertaining to their own company.

In addition to any formal notice that the CLECs may receive as a part of this proceeding, Qwest also provided a general notice to all CLECs on June 12, 2008 indicating which wire centers might be included in Qwest's filing. A copy of that notice is attached to this pleading as Exhibit 1.

In order to expedite provision of data to CLECs, each CLEC requesting the data should provide to Qwest a PDF copy of its signed Protective Agreement and associated exhibits. That signed Agreement should be provided to Stacy Hanson of Qwest at stacy.hanson@qwest.com. The CLEC should also specify the person's name, street address and telephone number to whom the data should be provided by overnight mail.

The wire centers for which Qwest seeks a non-impairment designation are as follows:

STATE	WIRE CENTER	CLLI	TIER	NON-IMPAIRMENT FOR
Idaho	Boise Main	BOISIDMA	Tier 1	DSI and DS3 Transport and Dark Fiber
Idaho	Boise West	BOISIDWE	Tier 2	DS3 Transport and Dark Fiber

CONCLUSION

For the reasons set forth above, Qwest respectfully requests the Commission approve Qwest's non-impaired wire center list in Idaho as specified herein.

Dated: June 27, 2008

Respectfully submitted,

QWEST CORPORATION
