Applicant intends to provide all forms of intrastate local exchange and interexchange telecommunications services including:

1. Interexchange (switched and dedicated services):

- A. 1+ and 101XXXX outbound dialing;

The switching system consists of a central processing and control complex capable of interconnection as a peer to the incumbent as well as competitive local exchange companies. The hub portion of the switch will interconnect with the public switched network on Signaling System 7 ("SS7") or Feature Group D ("FGD") facilities. The system's remote module capability will allow properties to be served in a manner that provides the exchange of appropriate signaling, control and calling/caller information to the network in accordance with network standards and specifications. Additionally, these services will be delivered over a combination of delivery mechanisms through incumbent local carriers' unbundled loop network, both copper and fiber and transport networks, as well as via Telcentrex constructed facilities. Applicant intends to provide service upon certification and finalization of interconnection agreements with the LECs.

Copies of Consolidated Financial Statements for the periods ended December 31, 2004, December 31, 2005 & August 31, 2006, for Cost Management Group, LLC, Applicant's parent company, Exhibit 3, are being filed in a separately sealed envelope marked "Confidential and Proprietary".
