**CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY, CASE**  
**NO. UPN-T-11-01**

On May 6, 2011, Unite Private Networks, L.L.C filed an Application for a Certificate of Public Convenience and Necessity. The Company requested authority to provide resold and facilities-based local exchange service within the State of Idaho, utilizing its own facilities and facilities of incumbent local exchange carriers or other competitive providers. After a preliminary review, Commission Staff determined that Unite Private Networks does not need a Certificate for the services that it plans to offer in Idaho. On June 22, 2011, the Company voluntarily withdrew its Application. Consequently, this case should now be closed.
