RE: CANCELLATION OF CERTIFICATE NO. 421 ISSUED TO VOLO
COMMUNICATIONS OF IDAHO, INC.; CASE NO. VOL-T-03-01.

BACKGROUND

On February 12, 2008, the Commission received a request to cancel the authorization to provide local exchange telecommunications services and withdraw the CLEC and IXC price list of Volo Communications of Idaho, Inc. ("Volo"). The Commission issued Certificate No. 421 in Case No. VOL-T-03-01 on January 22, 2004. See Order No. 29421. Volo states that the Company's lead investors have shut down its network and all employees have been laid off. The Company further states it has no customers in Idaho, no funds to pay fees, and wishes to cease its regulatory registration and annual fee assessments.

STAFF RECOMMENDATION

Staff has reviewed the request and agrees no customers will be impacted by the cancellation of Volo's certificate and recommends Commission approval.

COMMISSION DECISION

Does the Commission wish to cancel Certificate No. 421?
