Re:    Open Water Cases    Case No. AWS-W-07-01

To Whom It May Concern:

I happen to own one of the properties on this system and I find it deplorable that they are trying to raise the rates by such an outlandish amount. Please record the fact that I object to this. Any increases should be tied to the cost of living index.

It is one thing for someone to try to make a profit off of the water and sewer projects, but this is totally ridiculous.

Respectfully,

Lana Kay Hanson  
Broker
