Please describe your comment briefly:

I think the rate increase for water usage for the present homeowners is outrageous. 119.45% is more than double the current cost and I do not approve of it. The other fees they are asking for should be enough to increase their revenues.

Some of the present homeowners have already let their properties go due to the cost of watering, and it would be a shame to see other properties go downhill. If everybody quit watering their lawns, the revenue would be less, and then what? In this economy, I think raising this fee by over double is asking too much.

WE ARE IN A VERY BAD ECONOMY, EVERYONE READING THIS, KNOWS THAT. A 200% INCREASE IS ABSOLUTELY, NOT LOGICAL, HOW CAN THIS BE ALLOWED. WE MUST IMPOSE LIMITS TO COMPANIES ABILITIES TO INCREASE COST THIS MUCH, THIS FAST. YOU READING THIS, WOULD YOU BE ABLE TO AFFORD A 200% INCREASE IN ANY OF YOUR BILLS RIGHT NOW. WE JUST LOSS A FAMILY OWNED BRIDAL BUSINESS AND HAVE SUFFERED A 30% DECREASE IN PAY IN MY HUSBANDS INCOME. PLEASE SEND A MESSAGE, INCREASES ARE OK, WE UNDERSTAND, BUT SOMEONE IN POWER, STOP THIS 200% INCREASE, OR OUR COMMUNITEE WILL BE HURTING EVEN MORE THAN WE ALREADY ARE. THANKS FOR YOUR TIME. SHAWN AND CAMILE THOMPSON

Please describe your comment briefly:

we already pay \$15.00 for 7500 gallon of water and do not even use half of that amount. there is only 2 of us that live here. yes we do go over in the summer. but we also pay alot for that. we now pay about 90 cents for every 1000 gallons over and they are wanting over 2 dollers a thousand that will more then double our bill. then to go from 15 a month to over 30 for only 7500 gallons that is just not right.

they the Bar Circle's tells us we have to maintain a well gromed yard.

in order to do that we have to water. we will not be able to aford to have green grass or even a garden at that price.

a little raise is one thing but to rake us over the coals is another. why don't they just charge the new homes they are building to the north more and leave us that have lived here for years alone.

just because it is going to cost them more to move the water further north then us doesn't mean we should have to pay for that.

thank you

Will Webberding

Please describe your comment briefly:

we are a family of 2, 9 months out of the year we do not even come close to using our portion of the 7500 gallons of water. 3 months of the year we us a little extra. watering our lawn and a little garden we have out back. we allready pay about \$450.00 for those 3 months. if they get that increased do you have any idea what it will cost us to water a little lawn and small garden. (they are the ones that tell us we have to keep a well manicured lawn. its in the CC&Rs.) this i have no problem with but if you put this water increase on us then we can not afford to have a lawn or a garden.we ask that you please have some concideration for the home owner and not the guys who just want to get richer.

thank you so much for your time.

Susan Webberding

Please describe your comment briefly:

Regarding the proposed rate increase for Bar Circle S Water, I would like my concerns considered. I figured, using the new rates, what our average bill would be using the past twelve months usage. Our current average is \$24.61/mo. With the proposed rate increase our average bill would increase to \$53.96. Also, we have exceeded the 7500 gallon base rate in all of the last twelve months with a family of four and one dog. We installed a sprinkler system two years ago and have seen a drop in summer usage, but we still cannot stay within the 7500 gallons, not even close. In todays economy, when all of us our struggling to make ends meet, I think this rate increase request is excessive. Our home is located on the cul-de-sac and we experience dramatic fluxuations in water pressure during peak hours. There is another planned development (Double T Estates) in the future which will (again) drop the pressure during peak times. Why has Bar Circle S waited to slap the residents of this development with a huge rate increase all at once? If it is to help pay for the addition of more homes on the system, then they should not be allowed to add more homes - some of us are already 'taxed' for water during peak hours as it is. If the rate increase is approved, at least increase the base usage of 7500 to minimize the impact to the residents. Please do not allow them to implement this huge increase.
