I Support the Increase request for Bar Circle 'S' Water. I agree that they have not increased rates over a long period of time, as such an increase is warranted to maintain service levels.

We have no idea what justifies the tremendous increase in rates that this company is asking for. The owners of the company have built a new sub-division north of our area and presumably need funds to build the infrastructure for water delivery to that area from the same well from which they get our water. The trouble for them is that they have no buyers for these lots as yet, and thus no increased revenue to pay expenses. We certainly understand the need for cost of living increases, but this rate increase is ridiculous and totally unfair to all of us who are struggling in the present economy.

I understand that a rate increase may be necessary and even justifiable, but to increase rates to such a dramatic extent at one time is unacceptable and just plain poor business conduct. It is Bar Circle S Water CO.'s responsibility to operate their business in such a way that does not place such tremendous burden on their customers. They have failed to do this and now want their customers to bear the burden of their poor business practices. This is not acceptable. It is my sincere hope that a compromise on this rate increase will be agreed upon that will provide for a percentage of the needs that Bar Circle S Water has and yet not over burden the customers.
