DATE: MARCH 1, 2010

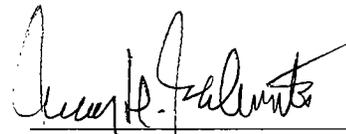

RE: COMPLIANCE FILING – TARIFF
CASE NO. BCS-W-09-02

As part of the Idaho Public Utilities Commission Order No. 31002, the Commission directed Bar Circle “S” Water Company to file an amended “new customer connection charges” tariff sheet in compliance with the charges authorized by this Order.

Staff reviewed the tariff submitted by the Company on February 25, 2010, to ensure that the language and charges reflect Commission directive as stated in Order No. 31002. The revised tariff includes the schedule for New Customer Connection Charges. See attachment. Staff confirms that the language and charges comport with Commission Order No. 31002. Staff recommends approval of the tariff.

COMMISSION DECISION

Does the Commission wish to approve the tariff as submitted on February 25, 2010?

NEW CUSTOMER CONNECTION CHARGES

For a first time connection to the Bar Circle "S" Water Company system when an existing service line and meter base are already in place on the property the charge is \$400.00.

If there is no service line tap to the Company's water mains or meter box in place on the property the charge is \$2,500.00.

When the installation of a new service line requires the Company to bore a line under a road, all additional costs will be charged to the customer on a time and materials basis. The new customer may, at their option, hire a Bar Circle "S" Company approved independent contractor to perform the road bore and connection. The Company will require such contractor to show proof of bonding, licensing and insurance and have at least five (5) years of experience at hot tapping water lines. Bar Circle "S" Water Company's Water Master will inspect and approve all the work being performed to insure compliance with the Company's installation requirements.
