IDaho PUBLIC UTILITIES COMMISSION

September 15, 2004

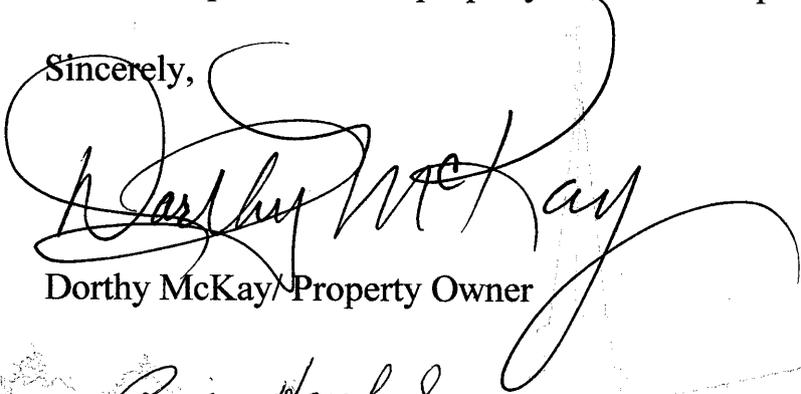

Public Utility Commission: Commission Secretary,

This letter is in regards to the Northwest Bible Church building project.

This last year and a half we have been communicating to the Eagle Water Department about the need to have service to the property we are building a chapel on. All of the zoning has passed, the roadway has been graded and we are now being halted because of Eagle Water and United Water both wanting to have rights to servicing this property. We also have learned that there has been no real urgency to resolve this matter EAG-W-04-2 with the Commission.

We want to express our concern about the importance of this matter and encourage the Commission to expedite the process so this building project and development of this property can be accomplished.

Sincerely,

Dorothy McKay/Property Owner

Bill Hereford/ President Northwest Bible Church
