Hi Jean: I just talked with this man and what he really wanted to do is to have his letter be a part of the "Comments" in the case. He wanted me to make sure that each and every Commissioner read his email. I assured him this would happen.

Thanks,
Marilyn

Complaint description: I would like to know why metered water users are being pentalized so much more than the non-metered water users. Metered users will pay for all water used where non-metered users do not pay for all water used. Metered water users will be paying 64.7% more if you approve this rate increase which brings water bills to approx. \$24.63. Non metered users will only have an increase of 10% which is approx. \$19.25 per month. That does not seem fair to me. Please do not approve the new rates they are not fair. Thank you Clarence H Davis
