**Schedule No. 1**

**General Metered Service Rates**

Availability: To all metered customer not served under another schedule.

Minimum Customer Charge:

Meter Size	Maximum Gallons Allowed in Minimum Charge	Monthly Minimum Charge
5/8" and 3/4"	12,000	\$16.10
1"	17,000	\$22.54
1 1/2"	22,000	\$28.98
2"	28,000	\$37.03
4"	49,000	\$66.01

Commodity Charge:

Rate per 1,000 Gallons of Use

For all water use in excess of the maximum gallons allowed in minimum charge.

\$0.611

Contract Conditions:

The customer shall pay the total of the minimum customer charge plus the commodity charge. The commodity charge is based on all metered water in excess of the maximum gallons allowed in the minimum customer charge for the billing period. Consumption is expressed in 1,000 gallon units as expressed by the meter installed by the Company. The minimum customer charge will apply even when service is provided for less than the entire billing period.

Meter Reading Schedule:

Meters for all residential services for single family homes and town homes will be read monthly starting in April and ending with the October reading. Winter usage is still metered; however the billing for the commodity charge during the winter months will be calculated and billed on the April billing. The winter commodity charge is calculated by subtracting the maximum gallons allowed in the minimum customer charge for the six winter billing periods from the total usage obtained from the April meter reading multiplied by applicable rate.

Meters for all commercial, industrial, institutional, apartment buildings with two or more units, and condominiums will be read monthly year round.
