---

On March 26, 2008, Island Park Water Company, Inc. (Island Park; Company) filed an Application with the Idaho Public Utilities Commission (Commission) requesting a 224% increase in rates, from \$125 per year to \$280 per year. Island Park is a regulated water utility operating under Certificate of Public Convenience and Necessity No. 317. The service area of Island Park is comprised of seven separate water systems located in Fremont County, Idaho. The Company currently has 310 customers. The Company's billing cycle is annual, from June 1 to May 31 each year.

Island Park contends that an increase in rates is necessary to meet increased operating expenses, including the higher cost of electricity, lab fees for testing water, labor and materials for repairs and maintenance to the pumps and water lines. The Company's existing rates were established in July 1992.
