On March 26, 2008, Island Park Water Company, Inc. (Island Park; Company) filed an Application with the Idaho Public Utilities Commission (Commission) requesting a 224% increase in rates, from \$125 per year to \$280 per year. Island Park is a regulated water utility operating under Certificate of Public Convenience and Necessity No. 317. The service area of Island Park is comprised of seven separate water systems located in Fremont County, Idaho. The Company currently has 310 customers.

Island Park contends that an increase in rates is necessary to meet increased operating expenses, including the higher cost of electricity, lab fees for testing water, labor and materials for repairs and maintenance to the pumps and water lines. The Company's existing rates were established in July 1992. The Company's billing cycle is annual, from June 1 to May 31 each year.

A Notice of the Company's Application was issued by the Commission on April 8, 2008. The Commission Staff held a public workshop at Ponds Lodge in Island Park on June 10, 2008 dispensing information, answering questions and obtaining customer input regarding the Company's Application.

YOU ARE HEREBY NOTIFIED that the Commission has reviewed the filings in this case including customer comments and has determined that the public interest does not require a technical hearing to consider the issues presented in this case, and that issues raised by the Company's filing can be adequately addressed by written submission and by public hearing. In so doing, the Commission notes that written comments and public testimony have proven to be an effective means for obtaining public input and participation.
