*Lin: We have a lot in shotgun south,
we use the lot 4 months a year. Some
are on their lots 6 months & of course the
Cabin people are year around. I feel that
those of us who own short term should
not pay like the cabin owner, they have
2 bath room, dish washer - clothes washer &
large lounge. We have 1 toilet little lounge,
use one fifth the water so we should pay
much less. The water pay should be fair to
all. The lots that are not being used should
pay nothing as there water is taken off*

Add to Mailing List: yes

Please describe your comment briefly:

2005-2007 multiple pump failures. None 2008. Now the water is yellow and smells like swamp water. All of our white cloths are turning yellow and we cannot drink the water because of the odor. Last yr. some of the residents complained and asked for remedies and none were done. We have 2 wells in our subdivision and they put the new pump in the bad well and are supplying the water from it. They are not using the good well except for back up.
