Please describe your question or comment briefly:

I received a notice that Nolan Gneiting is planning to raise our water bill by \$12.50 per month. We already pay \$40.70 a month. My comment is that I already pay quite a bit for water as it is. Also we don't always have quality water, low water pressure and sometimes no water for a day or two while they are working on the well. The \$40.70 is a year around amount and we don't water our lawn in the winter time so we don't use as much water either. We my husband and I feel that a 35% increase is too much.
