Please describe your question or comment briefly:

At the public workshop Nolan Gneiting was asked how many homes were on the water system. He replied that there are 85 units. I wanted to know how many of these 85 units were 1/4 acre, 1/2 acre, and 1 acre so I counted them. There are 130 units on the Morning View Water system. There are 41 in the 1/4 acre sections (18 in Hillman's and 23 in Nolan's), 57 in the 1/2 acre sections, and 32 in the one acre section. Did you know this? Did you actually count the units? What else has Mr. Gneiting been in error about?
