Please describe your comment briefly:

Nolan is asking for a 25% increase in our billing for water. We are living on Social Security alone. This would cause us great concern as we are already paying \$40.00 a month, which is higher than we have ever paid for monthly water anywhere we have lived. We also have sand in our water that no one seems very concerned about. We hate to think of paying more for our water.

I am having a problem with the rate increase that Moring View water is asking for. I feel that Noleen has increased our water bill last year to help out with repairs. Repairs that have not been done. the quality of the water and the pressure that I receive has not improved to where it needs to be. I feel that Noleen seems to be always getting away with things. Not following the rules and quality that is a standard in the water industry. I pay an extra 5.00 a month for a slush fund that has never become a fund it just goes into his pocket. When does our right become an issue.
