IDAHO PUBLIC  
UTILITIES COMMISSION

Idaho Public Utilities Commission  
P. O. Box 83720  
Boise, ID 83720-0074

REFERENCE: CASE NO: MNV-W-09-1

To Whom it May Concern:

It has come to our attention that Nolan Gneiting, owner of the Morning View Water Company, has petitioned the Idaho Public Utilities Commission (IPUC) for an immediate 25% rate increase.

As home owners, who live in the Morning View Acres subdivisions, we respectfully request a public meeting be held before any increase is considered or granted by your organization.

The last rate increase of 24.6%, which was approved by the IPUC in August of 2007, cites many of the same system/company deficiencies that still exist today, i.e., failure to file required reports, poor or nonexistent record keeping, and misuse of water company contingency funds. In addition, the IPUC requested that Morning View Water Company submit a plan for meter installation and acquire additional water rights beyond the 48 authorized hook-ups allowed by water right No. 25-7593 (priority date 10-10-1995).

The water system in question is not currently in compliance with Idaho Department of Environmental Quality regulations, e.g., low pressure, failure to file required reports on time, etc. These deficiencies must be satisfactorily addressed or the owner will face pending legal action in Seventh District Court.

We sincerely believe that the above stated reasons warrant a complete hearing of our concerns before any further actions, which could impact our water rates, are taken.

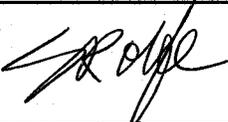

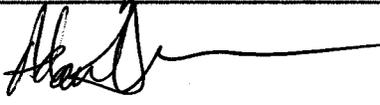

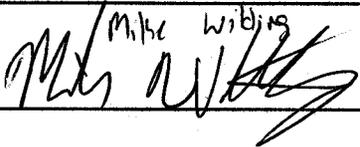

Sincerely,

See Attached Signature Sheet(s)
