Re: Case No. MSW-W-08-01 Order No. 30628

Pursuant to IPUC Rules of Procedure 331-01, we petition the Commission for reconsideration of order No. 30628 in the matter of the Mayfield Springs Water Company ("Company") application for a Certificate of Public Convenience and Necessity (CPCN).

We believe the subject order is unreasonable and not in conformity with the law and will provide arguments supporting this conclusion in the following areas:

1. The order contradicts the requirement of Idaho 61-701 in that the Commission takes no action to ensure Idaho statutes are "enforced and obeyed" as required.
2. The order authorizes a windfall profit for the Company in the collection of connection fees that the Commission found to be unreasonable.
3. The order authorizes the Company to collect interest on late charges the Commission ruled "excessive" in the cases where customers refused to pay the "excessive" charges.
4. The order ignores the actions taken by the Company prior to February 5, 2008 effectively encouraging the Company and the 4,000 water companies (according to PUC spokesperson) operating without a CPCN to continue to do so.

We respectfully request that these issues be heard through written briefs, comments and interrogatories.
