Home Telephone: 362-9281
Contact E-Mail: guyandlori@cableone.net
Name of Utility Company: Arbor Ridge/Intermountain /Idaho Springs
Add to Mailing List: yes

Please describe your question or comment briefly:

This is in regards to the application for Certificate of Public Convenience and Necessity for Arbor Ridge/Intermountain Sewer and Water/Idaho Springs. This company is at the core of a lawsuit where the owner has snce sold the well to himself for the third time in two years. For over two years, the owner of these companies, Mr. greg Johnson has been operating a for profit water company contrary to PUC regulations and without any regulation, simply charging what ever he deems appropriate. Mr. Johnson has claimed on multiple occasions that he is working with the PUC to establish rates when he has not. He has even gone so far as to claim that PUC is ok with his operating without certification and that it is done all this time. Mr. Johnson has designed a subdivision that has no other means of obtaining water by prohibiting homeowners from drilling wells and simply charging them whatever he wants creating his own monopoly. Mr. Johnson has avoided filing with the PUC because he wants to continue to operate without oversight of the PUC. He should have never been allowed to operate in this fashion and we hope that the PUC will step in and regulate this situation.
