Name of Utility Company: Idaho Springs Water Company Add to Mailing List:

Please describe your comment briefly:

The proposed water rate from my experience is too high. We used to live at the other end of Kuna Mora road (2004 to 2006) and paid a flat \$35 monthly for water. The hook up fee was \$500. The water was used for domestic and irrigation purposes. All properties in that subdivision are 1 acre (Forrey Hights Subdivision Water Association). I realize that water associations and utility companies are set up differently and thus the fees will be different; however, the difference is too large. I feel that a rate of \$40 is more appropriate as opposed to the proposed \$81.67. The rate for gallons used above the initial is ok. I think that is fair in as much as some live on .5 acre and other on a full acre. That will even out the charges as those on larger lots will obviously use more water for their yards. Thank you for your attention.
