I am the owner of 1 of 2 buisnesses in town.
in regards to raising our rates 131% I must
say it is absurd. My buisness is seasonal and
from the end of hunting season until May I
average about 6-8 hrs a day of being open. We
have no Lawns to water, no Laundry or showers being
taken. Homes use more water. I only speak for
myself as the other buisness is a Full restaurant. IF
he is installing meters he should Give a Basic rate
with so many gallons allowed and charge extra
for every 1,000 gallons beyond the min. allowed.
Our buisness is hurt when Power goes out and the
Owner of the water system does not want to fix
that.
