Please describe your question or complaint briefly:

Please be sure and audit the complete history of the Water company owned and operated via J. Hanson.
Over the past 30 years no repairs/expenses have been logged for the support of our water system.
All figures you used at the recent Nov meeting were of expenses incurred/paid after Oct 2004 when the system broke and we urged DEQ to look into the background of this water company.
I believe that all monies paid for over 30 years have been profit to the water company. Now that they have had to pay out for repairs--which have always existed since the system was built improperly--the water company would like the customers to pay for their neglect.
I do not think it fair that it is my responsibility to pay now for past history.
Please plan all meeting here in North Idaho so residents involved may attend.
Thank you for your attention to the matter.
