Name of Utility Company: Eagle Water

Comment: Scott & Diane Clark are opposed to SUEZ Water Company taking over the Eagle Water Company assets. Eagle water has always been a pure and plentiful water supply for the Eagle residents and it should not be tampered with by a foreign company that has no interest in the customer base

We are very concerned on any water quality change or additives being added to the process that may pose health risks. We have such pure water now that it should not be disturbed.

Eagle has ample water for our customer base and it is not right that a company should come in and want to divert our supplies to other locations within their systems that may be short on supply. We should not be responsible for that loss in; loss of our supply base nor economic impact that would result in changing the infrastructure to facilitate removing our water to tie to other systems.

We prefer that the Eagle City acquire the Eagle Water system. We have always supported an increase of water rates to keep the Eagle Water system a local vibrant asset. The PUC, in the past, has not allowed the Eagle Water to have rate increases and this has put undue pressure on their ability to manage - though they never failed the residents in quality in efficiency.

Please DO NOT approve a hostile take over of the Eagle Water to SUEZ!. Please allow Eagle Water to remain as is with a potential rate increase to become a vibrant local company or allow the City of Eagle to acquire the water system. We should NOT be required to fall into exorbitant prices fixes of a foreign company that has NO interest in local customer base.

Thank you for your review and doing the right thing to the citizens of Eagle!

Comment: After reading a random selection of comments relative to the SUEZ purchase of Eagle Water Company I have yet to see anything positive said about SUEZ. Current SUEZ customers dislike their experience with the company. Many Eagle Water customers including me see nothing positive about the threat of a SUEZ purchase. I want nothing to do with SUEZ. It is a foreign owned company trying to force themselves on Eagle Water customers for the sole purpose of making a buck at our expense. We need you to protect us from this predatory company. The City of Eagle should be the buyer of Eagle Water, leaving control of an invaluable resource in local hands. Do not roll over and approve the SUEZ buyout. We are the citizens you are obliged to protect and we don't want SUEZ.
