Re: *Tariff Schedules Nos. 2 & 3 – New Service Connections and Reconnection Fees.*

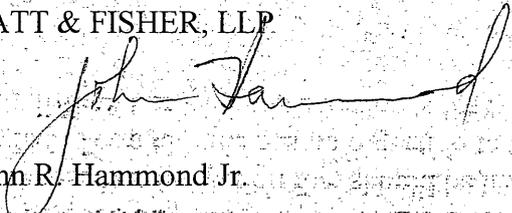

Dear Mr. Walker:

Attached to this correspondence for your convenience are proposed Tariff Schedules Nos. 2 & 3 for Terra Grande Water, submitted to the Commission on May 24, 2005. Schedule No. 2 is for new connections to the Terra Grande System and No.3 is for a reconnection fee to the system. In reference to these proposed Tariffs I was contacted June 8, 2005, by Randy Lobb who advised that the Commission Staff will treat the proposed Tariff Schedule No. 2 as a Tariff Advice and review it in that manner. However, Mr. Lobb advised that the Commission Staff believes Tariff Schedule No. 3, concerning the proposed reconnection fee, should be handled as if it were an Application rather than a Tariff Advice. Terra Grande has no objection to the Staff's position to review these proposed Tariffs through different procedures and stands ready for the Commission's review. Our client hopes that the review of Tariff Schedule No. 3 can be handled by Modified Procedure under the Commission's Rules. Finally, Terra Grande will file information in regard to Tariff Schedule No. 3 to aid Staff and the Commission's review of its contents.

If you have any questions regarding this matter please feel free to contact me at (208)-331-1000 or by email at jrh@battfisher.com. Thank you for your assistance in this matter.

Sincerely,

BATT & FISHER, LLP

Name of Utility

TERRA GRANDE WATER

(Approval Stamp)

SCHEDULE NO. 2

New Service Connections:

Terra Grande Water is responsible for the completion of new service connections within its certificated area. No such connection shall occur other than by the direction and authorization of Terra Grande Water.

Cost for New Customer Service Connections:

Upon request from a customer or owner renting property for residential use ("customer"), for a new service connection to Terra Grande's system said customer is responsible for paying Terra Grande Water for the actual cost of completing a connection for water service to Terra Grande's system. These costs include but are not limited to all costs for engineering, installation and materials for a new connection, which includes but is not limited to a line connection to the main, meter base, vault and stop valve.
