Name of Utility Company: Troy Hoffman Water Corp Acknowledge public record: True

Comment: Comment: I am not apposed to supporting a reasonable rate increase of residential water. I believe the water company should have some increases however; a 72% increase is way above the fair rate increase. I along with many others are on fixed incomes and have a hard time trying to keep up with continual increases. I have not received any cost of living increase in over three years. Please understand that I do understand the need for some increase, I just don't agree with the amount (72%) that is requested. Something a little more reasonable would be fair to all of us trying to maintain a good quality of life. Thanks for listening to my concern. George Parsons
