ZIP: 83686
Home Telephone: 208-467-7226
E-Mail: Crillhome@aol.com
Company: United Water/City of Nampa
mailing_list_yes_no: yes

Comment description: When we moved into the Carriage Hills Subdivision we were told that the well was controlled by United Water and that they would maintain control of our system indefinitely. The water quality and service has been excellent. Had we have been told that the City of Nampa would soon control this service, we would have not purchased our home. My daughter lives a short distance from us and is serviced by the City of Nampa. Her water is extremely hard and has a bad taste. In fact, they drink bottle water. In addition, the hard water has damaged all of her fixtures.

We were also told recently that the City has no intentions of using this well to service our subdivision, but rather is going to hook us up to thier water source (this is most likely the same source which services my daughters home). This entire transfer is not acceptable to us and we do not understand why we have to sacrifice our excellent water source to service the needs of the City and Developer, Sandy Johnson.
