IDAHO PUBLIC
UTILITIES COMMISSION

Idaho Public Utilities Commission
PO Box 83720
Boise, ID 83720-0074

January 30, 2005

Regarding United Water's rate increase request filed November 30th,
2004.

Why would the public utilities commission even consider a rate increase of 22.35% for residential customers? They sell water and there is no possible way that their costs could have increased this much unless they have rampant fraud or Enron style accounting.

This rate increase should definitely be denied as it is so far above the cost of inflation that it is ludicrous for them to ask for unless there is fraudulent activity being conducted. If the public utilities commission were to grant this request it really be a disgrace to the purpose of the commission.

Please provide me with dates of the public hearing, thanks

Sincerely,

Dave & Laurann Taylor

Have you contacted the utility regarding your concern?	<input checked="" type="radio"/> Yes <input type="radio"/> No

We strongly object to the rate increases for water for residences. We are retired and live on Social Security and a small pension. The small annual increases in Social Security do not allow for increase in the cost of water, electricity, taxes, insurance, besides the cost for everyday expenses, gasoline, etc. Please deny the request for increases in water from United Water of Idaho, or make some exemption for retired families.

Comment_description: I recieved a notice regarding the application by United Water proposing a 22.35% increase for residencial users. I am strongly against this huge increase all at once. I would certainly appreciate a more gradual increase as I realize cost have gone up over the last 4 years. But, please don't let them have it all at once.
thank you for your time.

Comment_description: I received a letter from United Water who filed an application to increase the company's rates and charges for water service. I do not approve of a revenue increase. In the letter United Water and the Columbia Water Treatment Plant has "carefully managing its costs" to defer the need for a rate adjustment. Please continue to monitor and manage your costs; \$6 a month or \$72 a year increase for revenue is too much.
