Company: United Water
mailing_list_yes_no: yes

Comment_description: I object to such a huge rate increase to cover the cost of new infrastructure as a result of new construction and development. That cost should be passed on to the New customers or planning commissions allowing development in areas where the cost of services diversely impacts customers in other service areas. The water quality in my area has been dismal with weekly "Brown Water" episodes. United water needs to find another source of funding for the New services or pass the construction to another water company.
