Subject: RE: United Water service territory expansion application

It is the position of the Nampa Public Works Department that private water systems not be allowed in Nampa's Impact Area, as this will cause complications when these systems are annexed.

If, in the future, the City of Nampa could acquire the entire water systems by having the opportunity to simply purchase the well, it would then be doable.

Paul Raymond
Public Works Director

Subject: United Water service territory expansion application

Attached is a copy of United Water's application to expand its service territory, along with a copy of the notice of application/notice of modified procedure that orders a 28-day comment period (that makes the comment deadline December 6). Comments should be sent to the Commission Secretary and identified as pertaining to Case No. UWI-W-05-4.
