---

In final Order No. 30345 issued in Case No. UWI-W-07-01, the Commission denied approval of a Special Facilities Agreement (SFA) between United Water and Avimor LLC. The Commission did not approve the SFA because it provided for a refund to Avimor of a significant part of the cost of a water transmission main. The Commission disapproved the SFA as filed, but stated it “will approve [the SFA] if amended to require the entire transmission main be contributed by Avimor.” Order No. 30345 p. 9.

On July 6, 1007, United Water filed a Compliance Filing and Motion setting forth an amendment to the SFA by United Water and Avimor. The amendments to the SFA remove the terms providing for refunds to Avimor for part of the construction of the water transmission main. The changes also make clear that all of the transmission main costs, whether identified as “on-site main” or “off-site main” will be paid for by Avimor, and “shall be recorded on the Company’s books as a contribution in aid of construction.” United Water requests approval of the amendments made to the SFA.

Because the parties have amended the SFA to require Avimor to contribute the entire cost of the transmission main, we find it appropriate to approve the SFA as amended.

IT IS HEREBY ORDERED that the Special Facilities Agreement between United Water and Avimor, as amended, is approved.
