Please describe your question or comment briefly:  
I am against the change in water billing from bi-monthly to monthly. While I agree with the budgeting and conservation arguments, I think that United Water is looking to smooth out its own revenue cycle and add staff. Why are the customers paying for this change if it is so good for us? The estimated \$13 a year isn't a huge increase, but shouldn't United Water be able to absorb the cost since they will have fewer meter problems and be able to detect leaks earlier?

Please describe your question or comment briefly:  
Why don't we raise rates to accommodate monthly billing by upping the rate on a ccf. This would encourage conservation. Hopefully it's time to encourage water conservation though higher cost, instead of just hoping people want to.

Thanks for your time:

Patrick

I am against the change to monthly billing. The last thing we need is another rate increase.

united water has submitted a request for monthly billing and of course wants the customers to pay for it. Many of us like the bimonthly billing and see no reason to change it nor do we want any more increases on our water bills--thank u

I am opposed to changing the billing cycle to monthly. I do not feel this would benefit me as a customer at all, it will simply cost me more money. Please deny their request and keep our bills as low as possible.

Thank you

Please describe your question or comment briefly:

I would rather pay my bill bi-monthly than monthly with the rate increase. There seem to be less benefits to the consumer and more to the utility in this case. There are certainly cheaper ways to allow the consumer to pay monthly if they choose.

To Whom it may concern:

I do NOT want United Waters application to convert to a monthly instead of a two month billing approved. Everything is fine the way it is.

All of our expenses keep rising but the peoples pay checks stay the same. This would increase my cost of water which is already high enough.

Please vote no on this change.

Thank You

Marlene Harris
