Name of Utility Company: United Water Company Add to Mailing List: yes

Please describe your comment briefly:  
United Water has asked for a rate increase of \$.15 per day over a month which equals \$4.50 per month which is outrageous! They should have spent the money they used to buy customers email addresses and information from a 3rd party company without their customer's permission so they could email the water bill to the customers (again without the customers knowledge or okay) for whatever they want the rate increase for, and then they would not need to raise the water rates!!! They need to manage their money better. I am against the requested rate increase. Everything keeps going up but our wages.
