Please describe your comment briefly:

The water is and always will be owned by us! United water is entitled to fair compensation for delivery and purification! Profits go to Europe they do not enhance our Nation! The economy is in the doldrums employment is at an all time low, why should an 15.21 increase be justified? You grant them increased rates in the summer to pump our water, our last bill was over \$100.00 and we are seniors on fixed incomes time to consider economic times and tell them NO!
