Please describe your comment briefly:

Please do not permit the requested rate increase. Their letter included in our bill only reiterated the 'pass it down to the customer' logic which is so falicious in this bad economy. The litany of what the company has done in Idaho for the past 3 years (since its last increase) shows that all it does is request a rate increase every time it wants to do something. Which makes one ask, What in the world are they spending our regular payments on if not the improvements they brag about? Use the money wisely that you already receive without having to ask for an increase before and after each new project. Stop the projects. Leave it be for a while!
