Please describe your comment briefly:

I would like to know why the United water can't give their customers the choice of having equal pay or not when paying their water bill. I would much rather pay a certain amount every month instead of having the extra large water bill during the summer especially since I have to pay the irrigation fee and can't use that water. I have to use clean city water and pay for both. Thank you for the space to voice my opinion, Vicki Faist
