Please describe your comment briefly:

I am against the proposed rate increase of United Water. Just because they made capital improvements doesn't mean that the consumer should bear this cost. Many manufacturing companies make capital improvements and these are not passed on to the consumer in all cases. Capital improvements can improve productivity and therefore reduce operating costs over time.

Thank you for hearing my opinion.

Please describe your comment briefly:

A rate increase is a hardship on all citizens. Increasing the rate will only add more households to the 'UW Cares' assistance program.
Don't increase rates!
