Please describe your comment briefly:

I believe that the requested 19.1% rate increase is outrageous. This increase was requested because consumption has decreased. Consumption has decreased because people are doing without to save money. This increase would punish everyone for saving. This increase would make all our water saving changes irrelevant. To increase everyone's rate at a time when everyone is cutting back should not be allowed. United Water Idaho needs to do the hard work and look for other ways to cut back and stay within their budget.

As Idaho and Ada County residents, my wife and I are against the Water Rate raise. Please look at overhead and expenses by the Water Company and determine if the rate increase is REALLY essential. If my business takes in less income, I need to cut back expenses, not raise prices.  
Thanks for listening. ...Gary

It is difficult living on limited income. I have not had a raise for 5 years. I am not in favor of United Water getting their requested rate increase. Holy macherel, they just received a increase last year. Please just say 'No'.
